Version: 2024-04-27

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
2334	Overcoming inactivity in young people. 2000 , 28, 31-2		7
2333	Factorial validity and invariance of questionnaires measuring social-cognitive determinants of physical activity among adolescent girls. 2000 , 31, 584-94		186
2332	Active commuting to school: an overlooked source of childrens' physical activity?. 2001 , 31, 309-13		220
2331	Parental provision of transportation for adolescent physical activity. 2001 , 21, 48-51		114
2330	Measuring enjoyment of physical activity in adolescent girls. 2001 , 21, 110-7		339
2329	Physical Education, Positivism, and Optimistic Claims From Achievement Goal Theorists: A Response to Pringle (2000). 2001 , 53, 457-470		4
2328	Behavioral science research in diabetes: lifestyle changes related to obesity, eating behavior, and physical activity. 2001 , 24, 117-23		300
2327	Lifestyle risk factors for osteoporosis in Asian and Caucasian girls. <i>Medicine and Science in Sports and Exercise</i> , 2001 , 33, 1818-24	1.2	25
2326	Childhood overweight: a contextual model and recommendations for future research. 2001 , 2, 159-71		802
2325	Physical activity and determinants of physical activity in obese and non-obese children. 2001 , 25, 822-9		413
2324	Child and parent characteristics as predictors of change in girls' body mass index. 2001 , 25, 1834-42		84
2323	A new measure for assessing the physical activity behaviors of persons with disabilities and chronic health conditions: the Physical Activity and Disability Survey. 2001 , 16, 34-42		71
2322	Association of parent and peer support with adolescent physical activity. 2002 , 73, 206-10		199
2321	Tracking and explanation of physical activity in young adults over a 7-year period. 2002 , 73, 376-85		43
2320	Physical Activity and Blood Pressure Patterns: A Cross-Sectional Study on Portuguese School Children Aged 8 Through 13 Years Old. 2002 , 31, 119-130		1
2319	Comparing the relationships between different types of self-efficacy and physical activity in youth. 2002 , 29, 491-504		56
2318	Self-efficacy and perceived exertion of girls during exercise. 2002 , 51, 86-91		44

2317	Physical activity and exercise: Recent advances and current challenges.. 2002 , 70, 526-536	74
2316	Examining social-cognitive determinants of intention and physical activity among Black and White adolescent girls using structural equation modeling.. 2002 , 21, 459-467	108
2315	Factorial invariance and latent mean structure of questionnaires measuring social-cognitive determinants of physical activity among black and white adolescent girls. 2002 , 34, 100-8	82
2314	Psychosocial correlates of physical activity and sedentary leisure habits in young adolescents: the Teens Eating for Energy and Nutrition at School study. 2002 , 34, 266-78	197
2313	Social cognitive determinants of physical activity in young adults: a prospective structural equation analysis. 2002 , 24, 149-56	333
2312	Factors affecting levels of physical activity in adults. 2002 , 32, 143-68	237
2311	Decline in physical activity in black girls and white girls during adolescence. 2002 , 347, 709-15	684
2310	Childhood obesity: public-health crisis, common sense cure. 2002 , 360, 473-82	2044
2309	Factors associated with physical activity in preschool children. 2002 , 140, 81-5	260
2308	One- and two-year predictors of decline in physical activity among inner-city schoolchildren. 2002 , 23, 121-8	65
2307	Toward a better understanding of the influences on physical activity: the role of determinants, correlates, causal variables, mediators, moderators, and confounders. 2002 , 23, 5-14	691
2306	Beyond the U-curve: the relationship between sport and alcohol, cigarette and cannabis use in adolescents. 2002 , 97, 707-16	94
2305	Obesigenic families: parents' physical activity and dietary intake patterns predict girls' risk of overweight. 2002 , 26, 1186-93	105
2304	Do perceived cues, benefits, and barriers to physical activity differ between male and female adolescents?. 2002 , 72, 374-80	60
2303	Leisure-time physical activity behavior: structured and unstructured choices according to sex, age, and level of physical activity. 2002 , 9, 111-21	88
2302	Environmental correlates of walking and cycling: findings from the transportation, urban design, and planning literatures. 2003 , 25, 80-91	1495
2301	Gender differences in the psychosocial and cognitive correlates of physical activity among Taiwanese adolescents: a structural equation modeling approach. 2003 , 10, 93-105	72
2300	Influences on diet and physical activity among middle-class African American 8- to 10-year-old girls at risk of becoming obese. 2003 , 35, 115-23	28
