

CITATION REPORT

List of articles citing

Effect of sparkling luminous elements on the overall brightness impression: A pilot study

DOI: 10.1177/096032710003200103

Lighting Research and Technology, 2000, 32, 19-26.

Version: 2024-04-25

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.
