Version: 2024-04-25

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
329	An in vitro experiment on the effect of an attempt to create an apical matrix during root canal preparation on coronal leakage and material extrusion. <i>Oral Surgery Oral Medicine Oral Pathology Oral Radiology and Endodontics</i> , 2001 , 91, 462-7		7
328	A primary observation on the preparation and obturation of oval canals. 2001 , 34, 137-41		208
327	The quality of root fillings remaining in mandibular incisors after root-end cavity preparation. 2001 , 34, 613-9		28
326	Quality of cold and warm gutta-percha fillings in oval canals in mandibular premolars. 2001 , 34, 485-91		103
325	An 18-month longitudinal study on a new silicon-based sealer, RSA RoekoSeal: a leakage study in vitro. <i>Oral Surgery Oral Medicine Oral Pathology Oral Radiology and Endodontics</i> , 2002 , 94, 499-502		39
324	Comparison of the apical seal obtained by a dual-cure resin based cement or an epoxy resin sealer with or without the use of an acidic primer. 2002 , 28, 721-3		26
323	Does the first file to bind correspond to the diameter of the canal in the apical region?. 2002 , 35, 264-7		100
322	A preliminary study of the percentage of gutta-percha-filled area in the apical canal filled with vertically compacted warm gutta-percha. 2002 , 35, 527-35		68
321	Periapical health related to the quality of coronal restorations and root fillings. 2002 , 35, 680-9		202
320	Quality of preparation of oval distal root canals in mandibular molars using nickel-titanium instruments. 2002 , 35, 919-28		66
319	The capability of two hand instrumentation techniques to remove the inner layer of dentine in oval canals. 2003 , 36, 218-24		141
318	Residual dentin thickness in mesial roots of mandibular molars prepared with Lightspeed rotary instruments and Gates-Glidden reamers. <i>Oral Surgery Oral Medicine Oral Pathology Oral Radiology and Endodontics</i> , 2003 , 96, 351-5		31
317	The effect of using an inverted master cone in a lateral compaction technique on the density of the gutta-percha fill. <i>Oral Surgery Oral Medicine Oral Pathology Oral Radiology and Endodontics</i> , 2003 , 96, 345-50		9
316	Effect of different temperatures and penetration depths of a System B plugger in the filling of artificially created oval canals. <i>Oral Surgery Oral Medicine Oral Pathology Oral Radiology and Endodontics</i> , 2003 , 96, 453-7		16
315	The influence of root-end resection and root-end cavity preparation on microleakage of root filled teeth in vitro. 2004 , 37, 403-7		11
314	The effectiveness of syringe irrigation and ultrasonics to remove debris from simulated irregularities within prepared root canal walls. 2004 , 37, 672-8		182
313	The efficacy of ultrasonic irrigation to remove artificially placed dentine debris from different-sized simulated plastic root canals. 2004 , 37, 607-12		92

312	Effect of modified Hedstrom files on instrumentation area produced by ProFile instruments in oval canals. <i>Oral Surgery Oral Medicine Oral Pathology Oral Radiology and Endodontics</i> , 2004 , 98, 493-8	10
311	Comparison of mandibular premolars and canines with respect to their resistance to vertical root fracture. 2004 , 32, 265-8	53
310	A comparison between a smooth wire and a K-file in removing artificially placed dentine debris from root canals in resin blocks during ultrasonic irrigation. 2005 , 38, 593-6	60
309	Influence of cervical preflaring on apical file size determination. 2005 , 38, 430-5	57
308	Root canal preparation with Endo-Eze AET: changes in root canal shape assessed by micro-computed tomography. 2005 , 38, 456-64	51
307	Anatomic Endodontic Technology (AET)--a crown-down root canal preparation technique: basic concepts, operative procedure and instruments. 2005 , 38, 575-87	20
306	Determining the apical terminus of root-end resected teeth using three modern apex locators: a comparative ex vivo study. 2005 , 38, 827-33	49
305	Reaction of periradicular tissues to root canal treatment: benefits and drawbacks. 2005 , 10, 123-147	66
304	Eradication of endodontic infection by instrumentation and irrigation solutions. 2005 , 10, 77-102	266
303	Mechanical preparation of root canals: shaping goals, techniques and means. 2005 , 10, 30-76	377
302	Root canal morphology and its relationship to endodontic procedures. 2005 , 10, 3-29	396
301	The role of apical instrumentation in root canal treatment: a review of the literature. 2005 , 31, 333-40	112
300	An evaluation of the quality of root fillings in mandibular incisors and maxillary and mandibular canines using different methodologies. 2005 , 33, 683-8	42
299	A 1-year follow-up study on leakage of single-cone fillings with RoekoRSA sealer. <i>Oral Surgery Oral Medicine Oral Pathology Oral Radiology and Endodontics</i> , 2006 , 101, 662-7	38
298	Comparison in vivo of the first tapered and nontapered instruments that bind at the apical constriction. <i>Oral Surgery Oral Medicine Oral Pathology Oral Radiology and Endodontics</i> , 2006 , 102, 395-8	3
297	Shock of paradigms on the instrumentation of curved root canals. 2006 , 17, 3-5	7
296	Evaluation of the accuracy of three electronic apex locators using glass tubules. 2006 , 39, 127-35	28
295	Consequences of and strategies to deal with residual post-treatment root canal infection. 2006 , 39, 343-56	138

294	The percentage of gutta-percha-filled area in simulated curved canals when filled using Endo Twinn, a new heat device source. 2006 , 39, 610-5	11
293	Changes in compaction stress distributions in roots resulting from canal preparation. 2006 , 39, 931-9	76
292	Cross-sectional analysis of root canals prepared with NiTi rotary instruments and stainless steel reciprocating files. <i>Oral Surgery Oral Medicine Oral Pathology Oral Radiology and Endodontics</i> , 2007 , 103, 120-6	30
291	Sealing ability of oval-shaped canals filled using the System B heat source with either gutta-percha or Resilon: an ex vivo study using a polymicrobial leakage model. <i>Oral Surgery Oral Medicine Oral Pathology Oral Radiology and Endodontics</i> , 2007 , 104, e114-9	18
290	Preparation of the coronal and middle third of oval root canals with a rotary or an oscillating system. <i>Oral Surgery Oral Medicine Oral Pathology Oral Radiology and Endodontics</i> , 2007 , 104, 852-6	14
289	The ability of optical coherence tomography to characterize the root canal walls. 2007 , 33, 1369-73	51
288	The principles of techniques for cleaning root canals. 2007 , 52, S52-63	82
287	Influence of cervical preflaring on apical file size determination in maxillary lateral incisors. 2007 , 18, 102-6	24
286	In vitro evaluation of root canal preparation using oscillatory and rotary systems in flattened root canals. 2007 , 15, 65-9	7
285	Influence of a brushing working motion on the fatigue life of NiTi rotary instruments. 2007 , 40, 45-51	39
284	The evaluation of removal of calcium hydroxide paste from an artificial standardized groove in the apical root canal using different irrigation methodologies. 2007 , 40, 52-7	145
283	The effect of the canal-filled area on the bacterial leakage of oval-shaped canals. 2008 , 41, 183-90	41
282	Influence of surface remodelling using burs on the macro and micro surface morphology of anatomically formed fibre posts. 2008 , 41, 345-55	14
281	Accuracy of two electronic apex locators in primary teeth with and without apical resorption: a laboratory study. 2008 , 41, 436-41	23
280	Periapical radiographs overestimate root canal wall thickness during post space preparation. 2008 , 41, 658-63	16
279	Efficacy of rotary instruments with greater taper in preparing oval root canals. 2008 , 41, 1088-92	51
278	Unevenness of the apical constriction in human maxillary central incisors. 2008 , 34, 157-9	15
277	Root canal systems in mandibular first premolars with C-shaped root configurations. Part I: Microcomputed tomography mapping of the radicular groove and associated root canal cross-sections. 2008 , 34, 1337-1341	94

276	The accuracy in the control of the apical extent of rotary canal instrumentation using Root ZX II and ProTaper instruments: an in vivo study. 2008 , 34, 1342-1345	23
275	Limited ability of three commonly used thermoplasticized gutta-percha techniques in filling oval-shaped canals. 2008 , 34, 1401-1405	87
274	Comparability of results from two leakage models. <i>Oral Surgery Oral Medicine Oral Pathology Oral Radiology and Endodontics</i> , 2008 , 106, 309-13	22
273	Micro-computerized tomographic analysis of radicular and canal morphology of premolars with long oval canals. <i>Oral Surgery Oral Medicine Oral Pathology Oral Radiology and Endodontics</i> , 2008 , 106, e70-6	32
272	Influence of cervical preflaring on determination of apical file size in mandibular molars: SEM analysis. 2008 , 19, 245-51	14
271	Influence of ProTaper finishing files and sodium hypochlorite on cleaning and shaping of mandibular central incisors--a histological analysis. 2009 , 17, 229-33	11
270	Morphology of the apical root canal system in Korean mandibular first molar. 2009 , 34, 137	2
269	Laser induced explosive vapor and cavitation resulting in effective irrigation of the root canal. Part 2: evaluation of the efficacy. 2009 , 41, 520-3	115
268	Root canal morphology of the mesiobuccal root of maxillary first molars: a micro-computed tomographic analysis. 2009 , 42, 165-74	81
267	Effect of filling technique and root canal area on the percentage of gutta-percha in laterally compacted root fillings. 2009 , 42, 719-26	26
266	The morphology of the apical foramen in posterior teeth in a North Indian population. 2009 , 42, 930-9	20
265	The quality of single cone and laterally compacted gutta-percha fillings in small and curved root canals as evidenced by bidirectional radiographs and fluid transport measurements. <i>Oral Surgery Oral Medicine Oral Pathology Oral Radiology and Endodontics</i> , 2009 , 108, 946-51	30
264	The effect of custom adaptation and span-diameter ratio on the flexural properties of fiber-reinforced composite posts. 2009 , 37, 383-9	15
263	A comparison of techniques for obturating oval-shaped root canals. 2009 , 28, 290-4	29
262	The taper of cast post preparation measured using innovative image processing technique. <i>BMC Oral Health</i> , 2010 , 10, 19	3.7 2
261	Apical fit of initial K-files in maxillary molars assessed by micro-computed tomography. 2010 , 43, 328-35	21
