List of articles citing

Inverted electron-hole alignment in InAs-GaAs self-assembled quantum dots

DOI: 10.1103/physrevlett.84.733
Physical Review Letters, 2000, 84, 733-6.

Version: 2024-04-26

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.
