Version: 2024-04-24

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
300	PCR-based identification of bacteria associated with endodontic infections. 2002 , 40, 3223-31		179
299	Assessment of endodontically treated teeth adjacent to proposed implant sites. 2002 , 11, 349-55		5
298	Substantive antimicrobial activity in chlorhexidine-treated human root dentin. <i>Oral Surgery Oral Medicine Oral Pathology Oral Radiology and Endodontics</i> , 2002 , 94, 240-5		117
297	Considerations and concepts of case selection in the management of post-treatment endodontic disease (treatment failure). 2002 , 1, 54-78		120
296	Rationale and efficacy of root canal medicaments and root filling materials with emphasis on treatment outcome. 2002 , 2, 35-58		48
295	Prognosis of initial endodontic therapy. 2002 , 2, 59-88		146
294	Are antibiotics effective for endodontic pain?. 2002 , 3, 52-66		28
293	Mechanisms involved in the resistance of <i>Enterococcus faecalis</i> to calcium hydroxide. 2002 , 35, 221-8		355
292	Influence of <i>Enterococcus faecalis</i> proteases and the collagen-binding protein, Ace, on adhesion to dentin. 2003 , 18, 121-6		102
291	Starvation survival, growth and recovery of <i>Enterococcus faecalis</i> in human serum. 2003 , 18, 234-9		124
290	Molecular characterization of the presence of <i>Eubacterium</i> spp and <i>Streptococcus</i> spp in endodontic infections. 2003 , 18, 249-55		30
