

# Brain-Mind States: I. Longitudinal Field Study of Sleep/ Report Length

Sleep

24, 1-179

DOI: 10.1093/sleep/24.2.1

Citation Report

#	ARTICLE	IF	CITATIONS
1	Temporal and stagewise distribution of high frequency EEG activity in patients with primary and secondary insomnia and in good sleeper controls. Journal of Sleep Research, 2001, 10, 93-104.	3.2	133
2	Nocturnal cortisol and melatonin secretion in primary insomnia. Psychiatry Research, 2002, 113, 17-27.	3.3	167
3	Narcolepsy. Nursing Clinics of North America, 2002, 37, 675-692.	1.5	3
4	Age-related changes in hypocretin (orexin) immunoreactivity in the cat brainstem. Brain Research, 2002, 930, 206-211.	2.2	43
5	Stereotypical gender-based emotions are not detectable in dream reports.. Dreaming, 2002, 12, 209-222.	0.5	10
6	Hypocretinergic Neurons are Primarily involved in Activation of the Somatomotor System. Sleep, 2003, , .	1.1	32
7	Thinking and hallucinating: Reciprocal changes in sleep. Psychophysiology, 2004, 41, 298-305.	2.4	118
8	Theory of Mind in Dreaming: Awareness of Feelings and Thoughts of Others in Dreams.. Dreaming, 2005, 15, 48-57.	0.5	45
9	Driving in Europe: the need of a common policy for drivers with obstructive sleep apnoea syndrome. Journal of Sleep Research, 2008, 17, 281-284.	3.2	43
10	Dreaming and dreaming disorders in the elderly. , 0, , 307-318.		0
11	Seeking patterns in dream content: A systematic approach to word searches. Consciousness and Cognition, 2009, 18, 905-916.	1.5	22
13	Thermal Nociception is Decreased by Hypocretin-1 and an Adenosine A1 Receptor Agonist Microinjected into the Pontine Reticular Formation of Sprague Dawley Rat. Journal of Pain, 2010, 11, 535-544.	1.4	19
14	Hypocretinergic neurons are activated in conjunction with goal-oriented survival-related motor behaviors. Physiology and Behavior, 2011, 104, 823-830.	2.1	22
15	Ultradian and circadian modulation of dream recall: EEG correlates and age effects. International Journal of Psychophysiology, 2013, 89, 165-170.	1.0	15
16	The hypocretins (orexins) mediate the "œphasic" components of REM sleep: A new hypothesis. Sleep Science, 2014, 7, 19-29.	1.0	18
17	The Analyst as Muse: The Expansive Dimension of the Transference. International Journal of Psychoanalytic Self Psychology, 2015, 10, 33-52.	0.1	2
18	Bizarreness and Emotion Identification in Grete Stern Photomontages: Gender and Age Disparities. Frontiers in Psychology, 2017, 8, 414.	2.1	0
19	Dream emotions: a comparison of home dream reports with laboratory early and late REM dream reports. Journal of Sleep Research, 2018, 27, 206-214.	3.2	17
