

CITATION REPORT

List of articles citing

Spatial-temporal structures of human alpha rhythms: theory, microcurrent sources, multiscale measurements, and global binding of local networks

DOI: 10.1002/hbm.1030

Human Brain Mapping, 2001, 13, 125-64.

Version: 2024-04-28

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
426	Wave-number spectrum of electroencephalographic signals. 2002 , 66, 061905		28
425	[Improving SNR (signal to noise ratio) in multichannel EEG recording]. 2002 , 47 Suppl 1 Pt 2, 566-9		1
424	Medium-range oscillatory network and the 20-Hz sensorimotor induced potential. <i>NeuroImage</i> , 2002 , 16, 130-41	7.9	28
423	Human alpha oscillations in wakefulness, drowsiness period, and REM sleep: different electroencephalographic phenomena within the alpha band. 2002 , 32, 54-71		131
422	The neurophysics of consciousness. 2002 , 39, 1-28		179
421	Oscillations in the alpha band (9-12 Hz) increase with memory load during retention in a short-term memory task. 2002 , 12, 877-82		784
420	Electroencephalography (EEG). 2002 , 169-179		7
419	Effects of prolonged waking-auditory stimulation on electroencephalogram synchronization and cortical coherence during subsequent slow-wave sleep. 2002 , 22, 4702-8		27
418	Toward direct mapping of neuronal activity: MRI detection of ultraweak, transient magnetic field changes. 2002 , 47, 1052-8		151
417	Nonlinear phase desynchronization in human electroencephalographic data. <i>Human Brain Mapping</i> , 2002 , 15, 175-98	5.9	89
416	Comparison of data transformation procedures to enhance topographical accuracy in time-series analysis of the human EEG. 2002 , 113, 111-22		65
415	Complexity measures of event related potential surface Laplacian data calculated using the wavelet packet transform. 2002 , 14, 333-44		7
414	Analysis of state-dependent transitions in frequency and long-distance coordination in a model oscillatory cortical circuit. 2003 , 15, 283-98		23
413	Personality, psychopathology and brain oscillations. 2003 , 35, 1331-1349		47
412	Cerebral information transfer during word processing: where and when does it occur and how fast is it?. <i>Human Brain Mapping</i> , 2003 , 19, 18-36	5.9	81
411	Analysis and modeling of quasi-stationary multivariate time series and their application to middle latency auditory evoked potentials. 2003 , 177, 203-232		24
410	Augmentation of induced visual gamma activity by increased task complexity. 2003 , 18, 2351-6		30

409	Scale-invariant fluctuations of the dynamical synchronization in human brain electrical activity. 2003 , 336, 33-6	57
408	Topology and graph theory applied to cortical anatomy may help explain working memory capacity for three or four simultaneous items. 2003 , 60, 25-42	7
407	Studying spontaneous EEG activity with fMRI. 2003 , 43, 110-33	152
406	Logistic Discriminant Functions in Electroencephalography. 2003 , 7, 5-23	1
405	Wave-number spectrum of electrocorticographic signals. 2003 , 67, 051912	19
404	Electroencephalographic signatures of attentional and cognitive default modes in spontaneous brain activity fluctuations at rest. 2003 , 100, 11053-8	773
403	Fronto-parietal evoked potential synchronization is increased during mental rotation. 2003 , 14, 67-71	46
402	Abnormal fronto-parietal coupling of brain rhythms in mild Alzheimer's disease: a multicentric EEG study. 2004 , 19, 2583-90	114
401	Intelligence related differences in induced brain activity during the performance of memory tasks. 2004 , 36, 597-612	24
400	A radial-basis function based surface Laplacian estimate for a realistic head model. 2004 , 17, 55-62	5
399	Estimation of neurophysiological parameters from the waking EEG using a biophysical model of brain dynamics. 2004 , 231, 413-33	104
398	Cortical mapping of EEG alpha power using a charge layer model. 2004 , 17, 65-71	7
397	Unifying and interpreting the spectral wavenumber content of EEGs, ECoGs, and ERPs. 2004 , 231, 397-412	12
396	Low-resolution electromagnetic tomography neurofeedback. 2004 , 12, 387-97	92
395	Making complexity simpler: multivariability and metastability in the brain. 2004 , 114, 843-62	161
394	Individual analysis of EEG frequency and band power in mild Alzheimer's disease. 2004 , 115, 299-308	237
393	Effects of electrode density and electrolyte spreading in dense array electroencephalographic recording. 2004 , 115, 710-20	37
392	Reduced BOLD response to periodic visual stimulation. <i>NeuroImage</i> , 2004 , 21, 236-43	7.9 39

391	Detection of very high correlation in the alpha band between temporal regions of the human brain using MEG. <i>NeuroImage</i> , 2004 , 22, 1432-7	7.9	16
390	The influence of auditory background stimulation (Mozart's sonata K. 448) on visual brain activity. <i>International Journal of Psychophysiology</i> , 2004 , 51, 261-71	2.9	21
389	Differences in induced brain activity during the performance of learning and working-memory tasks related to intelligence. 2004 , 54, 65-74		56
388	Functional connectivity during real vs imagined visuomotor tasks: an EEG study. 2004 , 15, 637-42		17
387	Enhanced EEG alpha time-domain phase synchrony during Transcendental Meditation: Implications for cortical integration theory. 2005 , 85, 2213-2232		51
386	Pre- and poststimulus alpha rhythms are related to conscious visual perception: a high-resolution EEG study. 2006 , 16, 1690-700		109
385	Modulations in the degree of synchronization during ongoing oscillatory activity in the human brain. 2005 , 21, 2547-54		33
384	A shift of visual spatial attention is selectively associated with human EEG alpha activity. 2005 , 22, 2917-26		534
383	The functional significance of mu rhythms: translating "seeing" and "hearing" into "doing". 2005 , 50, 57-68		705
382	Detecting evoked potentials with SVD- and ICA-based statistical models. 2005 , 24, 51-8		5
381	EEG alpha synchronization and functional coupling during top-down processing in a working memory task. <i>Human Brain Mapping</i> , 2005 , 26, 148-55	5.9	318
380	Spatial and temporal structure of phase synchronization of spontaneous alpha EEG activity. 2005 , 92, 54-60		70
379	Amplitude and phase relationship between alpha and beta oscillations in the human electroencephalogram. 2005 , 43, 599-607		40
378	A comparative study of different references for EEG spectral mapping: the issue of the neutral reference and the use of the infinity reference. 2005 , 26, 173-84		131
377	Beamformer analysis of MEG data. 2005 , 68, 149-71		170
376	Lower frequency variability in the alpha activity in EEG among patients with epilepsy. 2005 , 116, 2701-6		28
375	Functional integration in schizophrenia: too little or too much? Preliminary results on fMRI data. <i>NeuroImage</i> , 2005 , 26, 374-88	7.9	50
374	Neurophysiological correlates of persistent vegetative and minimally conscious states. 2005 , 15, 323-32		32

373	Differences in induced gamma and upper alpha oscillations in the human brain related to verbal/performance and emotional intelligence. <i>International Journal of Psychophysiology</i> , 2005 , 56, 223-33	2.9	59
372	Thalamocortical theta coherence in neurological patients at rest and during a working memory task. <i>International Journal of Psychophysiology</i> , 2005 , 57, 87-96	2.9	43
371	Sex differences in brain activity related to general and emotional intelligence. 2005 , 59, 277-86		34
370	Nonlinear multivariate analysis of neurophysiological signals. 2005 , 77, 1-37		792
369	Attentional shifts towards an expected visual target alter the level of alpha-band oscillatory activity in the human calcarine cortex. 2005 , 25, 799-809		88
368	Cross-sectional and longitudinal study of effects of transcendental meditation practice on interhemispheric frontal asymmetry and frontal coherence. 2006 , 116, 1519-38		71
367	Persistent EEG overactivation in the cortical pain matrix of neurogenic pain patients. <i>NeuroImage</i> , 2006 , 31, 721-31	7.9	191
366	Sources of cortical rhythms change as a function of cognitive impairment in pathological aging: a multicenter study. 2006 , 117, 252-68		202
365	Interaction between the flash evoked SSVEPs and the spontaneous EEG activity in children and adults. 2006 , 117, 279-88		32
364	Frontal white matter volume and delta EEG sources negatively correlate in awake subjects with mild cognitive impairment and Alzheimer's disease. 2006 , 117, 1113-29		127
363	Individual variability, end-point effects and possible biases in electrophysiological research. 2006 , 117, 2569-83		30
362	Role of corpus callosum in interhemispheric coherent activity during sleep. 2006 , 117, 1826-35		10
361	A theoretical basis for standing and traveling brain waves measured with human EEG with implications for an integrated consciousness. 2006 , 117, 2424-35		187
360	The influence of Mozart's music on brain activity in the process of learning. 2006 , 117, 2703-14		68
359	Functional frontoparietal connectivity during encoding and retrieval processes follows HERA model. A high-resolution study. 2006 , 68, 203-12		70
358	Genetic variation of individual alpha frequency (IAF) and alpha power in a large adolescent twin sample. <i>International Journal of Psychophysiology</i> , 2006 , 61, 235-43	2.9	89
357	Sleep. 2006 ,		2
356	[Coordination dynamics: (in)stability and metastability in the behavioural and neural systems]. 2006 , 200, 145-67		10

355	EEG coherence obtained from an auditory oddball task increases with age. 2006 , 23, 395-403	32
354	Quantitative EEG effects of carbamazepine, oxcarbazepine, valproate, lamotrigine, and possible clinical relevance of the findings. 2006 , 70, 190-9	95
353	Measurement of phase gradients in the EEG. 2006 , 156, 111-28	27
352	Steady-state visual evoked potentials: distributed local sources and wave-like dynamics are sensitive to flicker frequency. 2006 , 18, 167-87	112
351	Scaling and organization of electroencephalographic background activity and alpha rhythm in healthy young adults. 2006 , 95, 401-11	7
