List of articles citing

Application of finite element analysis in implant dentistry: a review of the literature

DOI: 10.1067/mpr.2001.115251

Journal of Prosthetic Dentistry, 2001, 85, 585-98.

Version: 2024-04-11

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.
