

CITATION REPORT

List of articles citing

Chromosomal inversions and the reproductive isolation of species

DOI: 10.1073/pnas.221274498

Proceedings of the National Academy of Sciences of the United States of America, 2001, 98, 12084-8.

Version: 2024-04-27

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
725	Niche dimensionality and ecological speciation. 2001 , 127-154		19
724	How do chromosomal changes fit in?. 2001 , 14, 872-873		14
723	Explosive chromosome evolution and speciation in the gerbil genus <i>Taterillus</i> (Rodentia, Gerbillinae): a case of two new cryptic species. 2002 , 96, 117-24		44
722	Genetic tools for studying adaptation and the evolution of behavior. 2002 , 160 Suppl 6, S143-59		91
721	Patterns of karyotype evolution in complexes of sibling species within three genera of African murid rodents inferred from the comparison of cytogenetic and molecular data. 2002 , 96, 261-75		53
720	Little qualitative RNA misexpression in sterile male F1 hybrids of <i>Drosophila pseudoobscura</i> and <i>D. persimilis</i> . 2002 , 2, 16		16
719	Divergence in Mate Choice Systems: does Evolution Play by Rules?. 2002 , 116, 151-166		29
718	Speciation and inversions: chimps and humans. 2003 , 25, 825-8		35
717	mtDNA perspective of chromosomal diversification and hybridization in Peters' tent-making bat (<i>Uroderma bilobatum</i> : Phyllostomidae). 2003 , 12, 2981-93		40
716	Impact of large chromosomal inversions on the adaptation and evolution of <i>Pseudomonas aeruginosa</i> chronically colonizing cystic fibrosis lungs. 2003 , 47, 145-58		87
715	Mimicry: developmental genes that contribute to speciation. 2003 , 5, 269-80		103
714	A comparison of five hybrid zones of the weta <i>Hemideina thoracica</i> (Orthoptera: Anostostomatidae): degree of cytogenetic differentiation fails to predict zone width. 2003 , 57, 849-61		45
713	Accumulating postzygotic isolation genes in parapatry: a new twist on chromosomal speciation. 2003 , 57, 447-59		291
712	Sex chromosome evolution and speciation in <i>Ficedula</i> flycatchers. 2003 , 270, 53-9		166
