

CITATION REPORT

List of articles citing

What is cognitive reserve? Theory and research application of the reserve concept

DOI: 10.1017/s1355617702813248

Journal of the International Neuropsychological Society, 2002, 8, 448-460.

Version: 2024-04-28

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

- 74 Inhibition and Creativity in Aging: Does Distractibility Enhance Creativity?. **2022**, 4, 353-375 ○
- 73 Walking, Running, Swimming: An Analysis of the Effects of Land and Water Aerobic Exercises on Cognitive Functions and Neural Substrates. **2022**, 19, 16310 1
- 72 A novel performance scoring quantification framework for stress test set-ups. ○
- 71 Well-Being and Cognitive Resilience to Dementia-Related Neuropathology. 095679762211198 ○
- 70 Second impact syndrome: The influence of climate change and increased disaster frequency on livelihoods and adaptive capacity in rural Haiti. **2022**, 103509 ○
- 69 GO Revisited: Qualitative Analysis of the Motivating Factors to Start and Continue Playing GO. **2023**, 40, 52-63 ○
- 68 Matrescence: lifetime impact of motherhood on cognition and the brain. **2023**, ○

- 67 Virtual reality as a personification method for training memory and attention (non-systematic review). **2023**, 27, 5-12 ○
- 66 The association between leisure activity patterns and the prevalence of mild cognitive impairment in community-dwelling older adults. 13, ○
- 65 Psychometric properties of the Chinese version of the Cognitive Reserve Assessment Scale in Health in patients with cancer. **2023**, 23, ○
- 64 Mediation effects of cognitive, physical, and motivational reserves on cognitive performance in older people. 13, ○
- 63 Resilience of Neural Cellularity to the Influence of Low Educational Level. **2023**, 13, 104 ○
- 62 How does anticipatory trauma reaction and climate-friendly behaviour make an affect at the individual level? The role of social norms and self-efficacy. ○
- 61 Cognitive reserve in patients with mood disorders: Validation study of the Chinese version of the cognitive reserve assessment scale in health. **2023**, ○
- 60 Baseline Function and Rehabilitation Are as Important as Stroke Severity as Long-term Predictors of Cognitive Performance Post-stroke. **2023**, 102, S43-S50 ○
- 59 Sex differences in the mediating role of chronic inflammation on the association between social isolation and cognitive functioning among older adults in the United States. **2023**, 149, 106023 ○
- 58 The Reciprocal Relationship Between Social Engagement and Cognitive Function Among Older Adults in South Korea. 073346482211489 ○
- 57 Intersectional Effects of Race and Educational Attainment on Memory Function of Middle-Aged and Older Adults With Alzheimer's Disease. 3
- 56 Predictive signature of static and dynamic functional connectivity for ECT clinical outcomes. 14, ○
- 55 Sex/gender and socioeconomic differences in modifiable risk factors for dementia. **2023**, 13, 1
- 54 Big Five personality factors predict self-rated cognitive reserve: a two-wave online study in a Mexican sample. 1-14 ○
- 53 The effect of damage to the white matter network and premorbid intellectual ability on postoperative verbal short-term memory and functional outcome in patients with brain lesions. **2023**, 18, e0280580 ○
- 52 Cognitive and Emotional Aging Across the Life Span: Implications for Building the Cognitive Reserve and Resilience. **2023**, 287-309 ○
- 51 New horizons in understanding oral health and swallowing function within the context of frailty. **2023**, 52, ○
- 50 Cohort study of the effects of occupation and environmental tobacco smoke on the incidence of Alzheimer's disease among seniors. **2023**, 21, 1-8 ○

- 49 Lower and higher volumes of physical exercise build up brain reserves against memory deficits triggered by a head injury in mice. **2023**, 363, 114352 ○
- 48 The association between subjective cognitive decline and trajectories of objective cognitive decline: Do social relationships matter?. **2023**, 111, 104992 ○
- 47 Waist-to-calf circumference ratio and cognitive function among Chinese older adults: Mediating roles of physical performance and social activity. 15, ○
- 46 How long have you exercised in your life? The effect of motor reserve and current physical activity on cognitive performance. 1-7 ○
- 45 Effects of education mediated by brain size on regional brain volume in adults. **2023**, 330, 111600 ○
- 44 Social isolation is linked to classical risk factors of Alzheimer’s disease-related dementias. **2023**, 18, e0280471 ○
- 43 Neural correlates of subjective cognitive decline in adults at high risk for Alzheimer’s disease. 15, ○
- 42 Effectiveness of an Individualized Exergame-Based Motor-Cognitive Training Concept Targeted to Improve Cognitive Functioning in Older Adults With Mild Neurocognitive Disorder: Study Protocol for a Randomized Controlled Trial. 12, e41173 ○
- 41 An empirical measure of resilience explains individual differences in the effect of tau pathology on memory change in aging. **2023**, 3, 229-237 ○
- 40 Cerebro-cerebellar functional neuroplasticity mediates the effect of electric field on electroconvulsive therapy outcomes. **2023**, 13, ○
- 39 Predictors of cognitive functioning trajectories among older Americans: A new investigation covering 20 years of age- and non-age-related cognitive change. **2023**, 18, e0281139 ○
- 38 State-Level Indicators of Childhood Educational Quality and Incident Dementia in Older Black and White Adults. **2023**, 80, 352 ○
- 37 Know thyself: Executive functioning and sex predict self-appraisal of functional abilities in community-dwelling older adults. 1-24 ○
- 36 Child Support Grant expansion and cognitive function among women in rural South Africa: findings from a natural experiment in HAALSI cohort. ○
- 35 Role of cognitive reserve in ischemic stroke prognosis: A systematic review. 14, ○
- 34 Cognitive Development in Midlife and Older Age: From Neuroplasticity to Self-Efficacy and Positive Views on Ageing. **2023**, 99-128 ○
- 33 Cognitive impairment and partnership status in the United States, 1998–2016, by sex, race/ethnicity, and education. 1-11 ○
- 32 The Protective Role of Cognitive Reserve in Mild Cognitive Impairment: A Systematic Review. **2023**, 12, 1759 1

- 31 Review of Bilingual/Multilingual Benefits on Cognitive Reserve, Executive Functions and Code Switching Cost. **2023**, 05, 1-13 ○
- 30 Physical reserve: construct development and predictive utility. ○
- 29 Education reduces cognitive dysfunction in Alzheimer’s disease by changing regional cerebral perfusion: An in-vivo arterial spin labeling study. ○
- 28 Sex-specific differences in neuropsychological profiles of mild cognitive impairment in a hospital-based clinical sample. 1-10 ○
- 27 Understanding the relationships between physiological and psychosocial stress, cortisol and cognition. 14, ○
- 26 Genetic propensity for cerebral amyloidosis and risk of mild cognitive impairment and Alzheimer’s disease within a cognitive reserve framework. ○
- 25 Work-Related Psychosocial Factors and Global Cognitive Function: Are Telomere Length and Low-Grade Inflammation Potential Mediators of This Association?. **2023**, 20, 4929 ○
- 24 2023 Alzheimer’s disease facts and figures. **2023**, 19, 1598-1695 1
- 23 Specific but not general declines in attention and executive function with aging: Converging cross-sectional and longitudinal evidence across the adult lifespan. 14, ○
- 22 The Relationship between Big Five Personality Traits and Cognitive Aging and Its Influencing Mechanism. **2023**, 10, 20-26 ○
- 21 Are musical activities associated with enhanced speech perception in noise in adults? A systematic review and meta-analysis. **2023**, 4, 100083 ○
- 20 NHANES 2011–2014 Reveals Decreased Cognitive Performance in U.S. Older Adults with Metabolic Syndrome Combinations. **2023**, 20, 5257 ○
- 19 Cognitive Decline and Its Associated Factors in Patients with Major Depressive Disorder. **2023**, 11, 950 ○
- 18 Rapid Effects of BCI-Based Attention Training on Functional Brain Connectivity in Poststroke Patients: A Pilot Resting-State fMRI Study. **2023**, 15, 549-559 ○
- 17 Gendered life courses and cognitive functioning in later life: the role of context-specific gender norms and lifetime employment. **2023**, 20, ○
- 16 The utility of the Cognitive Reserve Index questionnaire in chronic traumatic brain injury. 1-20 ○
- 15 Compensatory Mechanisms in Early Alzheimer’s Disease and Clinical Setting: The Need for Novel Neuropsychological Strategies. 1-13 ○
- 14 Moderating effects of cognitive reserve on the relationship between brain structure and cognitive abilities in middle-aged and older adults. **2023**, ○

- 13 18F-AV45 PET and MRI Reveal the Influencing Factors of Alzheimer’s Disease Biomarkers in Subjective Cognitive Decline Population. **2023**, 1-10
- 12 Differences in white matter hyperintensities in socioeconomically deprived groups: results of the population-based LIFE Adult Study. 1-14
- 11 Physical mobility, social isolation and cognitive function: Are there really gender differences?. **2023**,
- 10 The Role of Continuing Education on Elderly Memory: Islamic Perspective. **2023**, 103-109
- 9 Cognition, body, and mind: A three-in-one coordinate-based fMRI meta-analysis on cognitive, physical, and meditative trainings.
- 8 Ecological evidence for later dementia diagnosis in areas with higher rates of bilingualism: Evidence from Y Fro Gymraeg in Wales. **2023**, 1, 40-47
- 7 Measures of cognitive reserve: An umbrella review. 1-74
- 6 Impact of educational attainment on time to cognitive decline among marginalized older adults: Cohort study of 20,311 adults.
- 5 Cognitive impairment in young adults with post COVID-19 syndrome. **2023**, 13,
- 4 Predicting the Evolution of Subjective Cognitive Decline to Alzheimer’s Disease With machine learning: the PREVIEW study protocol.
- 3 New perspectives on the basal forebrain cholinergic system in Alzheimer’s disease. **2023**, 105192
- 2 Getting the brain into gear: An online study investigating cognitive reserve and word-finding abilities in healthy ageing. **2023**, 18, e0280566
- 1 Cocaine Use May Moderate the Associations of HIV and Female Sex with Neurocognitive Impairment in a Predominantly African American Population Disproportionately Impacted by HIV and Substance Use.
