

CITATION REPORT

List of articles citing

Fetal origins of adult disease: strength of effects and biological basis

DOI: 10.1093/ije/31.6.1235

International Journal of Epidemiology, 2002, 31, 1235-9.

Version: 2024-04-27

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.
