

CITATION REPORT

List of articles citing

Working memory and apolipoprotein E: what's the connection?

DOI: 10.1016/s0028-3932(02)00132-x
Neuropsychologia, 2002, 40, 2226-33.

Source: <https://exaly.com/paper-pdf/34457267/citation-report.pdf>

Version: 2024-04-28

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
95	Executive Attention, Working Memory Capacity, and a Two-Factor Theory of Cognitive Control. <i>Psychology of Learning and Motivation - Advances in Research and Theory</i> , 2003 , 44, 145-199	1.4	226
94	Proteomic approaches in drug discovery and development. <i>International Review of Neurobiology</i> , 2004 , 61, 97-126	4.4	8
93	The generality of working memory capacity: a latent-variable approach to verbal and visuospatial memory span and reasoning. <i>Journal of Experimental Psychology: General</i> , 2004 , 133, 189-217	4.7	1088
92	Working memory capacity and the antisaccade task: individual differences in voluntary saccade control. <i>Journal of Experimental Psychology: Learning Memory and Cognition</i> , 2004 , 30, 1302-21	2.2	247
91	Differences between recognition memory and remote memory for olfactory and visual stimuli in nondemented elderly individuals genetically at risk for Alzheimer's disease. <i>Experimental Gerontology</i> , 2004 , 39, 433-41	4.5	29
90	Context-specific memory and apolipoprotein E (ApoE) epsilon 4: cognitive evidence from the NIMH prospective study of risk for Alzheimer's disease. <i>Journal of the International Neuropsychological Society</i> , 2004 , 10, 362-70	3.1	39
