

CITATION REPORT

List of articles citing

The family of Na⁺/Cl⁻ neurotransmitter transporters

DOI: 10.1046/j.1471-4159.1998.71051785.x

Journal of Neurochemistry, 1998, 71, 1785-803.

Version: 2024-04-27

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
292	Transmembrane domain I contributes to the permeation pathway for serotonin and ions in the serotonin transporter. 1999 , 19, 4705-17		159
291	Membrane trafficking regulates the activity of the human dopamine transporter. 1999 , 19, 7699-710		297
290	Cloning and functional expression of a human Na(+) and Cl(-)-dependent neutral and cationic amino acid transporter B(0+). <i>Journal of Biological Chemistry</i> , 1999 , 274, 23740-5	5.4	253
289	Developmental expression of the neurotransmitter transporter NTT4. 1999 , 55, 24-35		8
288	Developmental expression of the neurotransmitter transporter GAT3. 1999 , 55, 394-9		16
287	Molecular cloning, expression and characterization of a bovine serotonin transporter. 1999 , 71, 120-6		49
286	Defining proximity relationships in the tertiary structure of the dopamine transporter. Identification of a conserved glutamic acid as a third coordinate in the endogenous Zn(2+)-binding site. <i>Journal of Biological Chemistry</i> , 1999 , 274, 36928-34	5.4	94
285	Cloning, functional characterisation and population analysis of a variant form of the human glycine type 2 transporter. 1999 , 463, 301-6		8
284	Dopamine-independent action of cocaine on striatal and accumbal neurons. 2000 , 12, 1789-800		36
283	Identification and characterization of the high-affinity choline transporter. 2000 , 3, 120-5		268
282	SNARE-ing neurotransmitter transporters. 2000 , 3, 969-71		13
281	Gamma-Aminobutyric acid (GABA) transport across human intestinal epithelial (Caco-2) cell monolayers. <i>British Journal of Pharmacology</i> , 2000 , 129, 457-64	8.6	54
280	Membrane transporters. 2000 , 11 Suppl 2, S41-50		121
279	Gene expression in the brain across the sleep-waking cycle. 2000 , 885, 303-21		293
278	Cocaine and antidepressant-sensitive biogenic amine transporters exist in regulated complexes with protein phosphatase 2A. 2000 , 20, 7571-8		180
277	Role of Cl- in electrogenic Na+-coupled cotransporters GAT1 and SGLT1. <i>Journal of Biological Chemistry</i> , 2000 , 275, 37414-22	5.4	94
276	Transmembrane domain III plays an important role in ion binding and permeation in the glycine transporter GLYT2. <i>Journal of Biological Chemistry</i> , 2000 , 275, 13856-62	5.4	23

275	Permeation and gating residues in serotonin transporter. <i>Proceedings of the National Academy of Sciences of the United States of America</i> , 2000 , 97, 1044-9	11.5	114
274	Mutation of arginine 44 of GAT-1, a (Na(+)+Cl(-))-coupled gamma-aminobutyric acid transporter from rat brain, impairs net flux but not exchange. <i>Journal of Biological Chemistry</i> , 2000 , 275, 34106-13	5.4	48
273	Glycine induced calcium concentration changes in vestibular type I sensory cells. 2000 , 140, 126-36		7
272	Ontogeny of Rxt1, a vesicular "orphan" Na(+)/Cl(-)-dependent transporter, in the rat. 2000 , 96, 627-37		2
271	Ligand interaction with the purified serotonin transporter in solution and at the air/water interface. 2000 , 471, 56-60		9
270	Functional characterization of the human high-affinity choline transporter. 2000 , 484, 92-7		92
269	Characterization of human taurine transporter expressed in insect cells using a recombinant baculovirus. <i>Protein Expression and Purification</i> , 2001 , 23, 389-97	2	10
268	Pharmacological characterization and visualization of the glial serotonin transporter. <i>Neurochemistry International</i> , 2001 , 39, 39-49	4.4	61
267	Glutamate uptake. 2001 , 65, 1-105		3667
266	Three kinds of currents in the canine betaine-GABA transporter BGT-1 expressed in <i>Xenopus laevis</i> oocytes. 2001 , 1538, 172-80		13
265	Neurotransmitter action in osteoblasts: expression of a functional system for serotonin receptor activation and reuptake. 2001 , 29, 477-86		177
264	Pharmacological assessment of the role of the glycine transporter GlyT-1 in mediating high-affinity glycine uptake by rat cerebral cortex and cerebellum synaptosomes. <i>Neuropharmacology</i> , 2001 , 41, 88-96 ⁵		82
263	Glycine neurotransmitter transporters: an update. 2001 , 18, 13-20		77
262	Characterization of a mouse colonic system B(0+) amino acid transporter related to amino acid absorption in colon. 2001 , 281, G365-70		32
261	Function and regulation of monoamine transporters: focus on the norepinephrine transporter. 2001 , 6, 671-4, 677-8		2
260	Amine Transporters. 2001 ,		
259	Reaction of oxidized dopamine with endogenous cysteine residues in the human dopamine transporter. <i>Journal of Neurochemistry</i> , 2001 , 76, 1242-51	6	158
258	Transport of L-carnitine in isolated cerebral cortex neurons. 2001 , 268, 2091-8		23

257	Regulated trafficking of neurotransmitter transporters: common notes but different melodies. <i>Journal of Neurochemistry</i> , 2002 , 80, 1-11	6	166
256	Non-amines, drugs without an amine nitrogen, potently block serotonin transport: novel antidepressant candidates?. 2001 , 42, 129-40		14
255	Molecular mechanisms of neurotransmitter release. 2001 , 24, 581-601		51
254	gamma-Aminobutyric acid transporters in the cat periaqueductal gray: a light and electron microscopic immunocytochemical study. 2001 , 429, 337-54		20
253	Chronic and acute regulation of Na ⁺ /Cl ⁻ -dependent neurotransmitter transporters: drugs, substrates, presynaptic receptors, and signaling systems. 2001 , 92, 21-55		229
252	Developmental changes in GABA transporter (GAT1 and GAT3) mRNA expressions in the rat olfactory bulb. 2001 , 126, 137-45		8
251	Substrate-induced conformational changes of extracellular loop 1 in the glycine transporter GLYT2. <i>Journal of Biological Chemistry</i> , 2001 , 276, 43463-70	5-4	34
250	Engineered Zn(2+) switches in the gamma-aminobutyric acid (GABA) transporter-1. Differential effects on GABA uptake and currents. <i>Journal of Biological Chemistry</i> , 2001 , 276, 40476-85	5-4	38
249	A conformationally sensitive residue on the cytoplasmic surface of serotonin transporter. <i>Journal of Biological Chemistry</i> , 2001 , 276, 45933-8	5-4	42
248	Cysteine 144 in the third transmembrane domain of the creatine transporter is located close to a substrate-binding site. <i>Journal of Biological Chemistry</i> , 2001 , 276, 46983-8	5-4	40
247	Biophysical characterization of the cocaine binding pocket in the serotonin transporter using a fluorescent cocaine analogue as a molecular reporter. <i>Journal of Biological Chemistry</i> , 2001 , 276, 4717-23	5-4	23
246	Amino acid transporter CAATCH1 is also an amino acid-gated cation channel. <i>Journal of Biological Chemistry</i> , 2001 , 276, 33413-8	5-4	26
245	Inhibition of eukaryote signal transduction components by plant defensive secondary metabolites. 2001 , 25, 513-564		
244	Surface-localized glycine transporters 1 and 2 function as monomeric proteins in <i>Xenopus</i> oocytes. <i>Proceedings of the National Academy of Sciences of the United States of America</i> , 2001 , 98, 1448-1453	11.5	40
243	A lithium-induced conformational change in serotonin transporter alters cocaine binding, ion conductance, and reactivity of Cys-109. <i>Journal of Biological Chemistry</i> , 2001 , 276, 30942-7	5-4	35
242	The role of zinc ions in reverse transport mediated by monoamine transporters. <i>Journal of Biological Chemistry</i> , 2002 , 277, 21505-13	5-4	69
241	Ethanol-sensitive sites on the human dopamine transporter. <i>Journal of Biological Chemistry</i> , 2002 , 277, 30724-9	5-4	31
240	Differential effect of pH on sodium binding by the various GABA transporters expressed in <i>Xenopus</i> oocytes. 2002 , 527, 125-32		10

239	Analysis of gene expression following spinal cord injury in rat using complementary DNA microarray. 2002 , 327, 133-7		66
238	Accessibility and conformational coupling in serotonin transporter predicted internal domains. 2002 , 22, 8370-8		52
237	Transport-mediated synapses in the retina. 2002 , 82, 875-91		45
236	Gamma-aminobutyric acid transporter (BGT-1) expressed in human astrocytoma U373 MG cells: pharmacological and molecular characterization and phorbol ester-induced inhibition. 2002 , 69, 125-32		12
235	Immunocytochemical localization of a <i>Manduca sexta</i> gamma-aminobutyric acid transporter. 2002 , 448, 388-98		10
234	Constitutive phosphorylation of the vesicular inhibitory amino acid transporter in rat central nervous system. <i>Journal of Neurochemistry</i> , 2000 , 75, 1654-63	6	28
233	Glycine transporter isoforms show differential subcellular localization in PC12 cells. <i>Journal of Neurochemistry</i> , 2002 , 82, 58-65	6	18
232	Expression and functional characterization of the extraneuronal monoamine transporter in normal human astrocytes. <i>Journal of Neurochemistry</i> , 2003 , 84, 43-52	6	66
231	Beta-alanine and taurine as endogenous agonists at glycine receptors in rat hippocampus in vitro. 2002 , 539, 191-200		170
230	The significance of molecular slips in transport systems. 2002 , 3, 876-81		74
229	Bi-directional transport of GABA in human embryonic kidney (HEK-293) cells stably expressing the rat GABA transporter GAT-1. <i>British Journal of Pharmacology</i> , 2002 , 135, 93-102	8.6	21

223	Functional consequences of homo- but not hetero-oligomerization between transporters for the biogenic amine neurotransmitters. <i>Journal of Neurochemistry</i> , 2003 , 85, 1513-20	6	49
222	Calpain-mediated proteolytic cleavage of the neuronal glycine transporter, GlyT2. <i>Journal of Neurochemistry</i> , 2004 , 88, 227-32	6	17

221	Effects of fenfluramine and antidepressants on protein kinase C activity in rat cortical synaptoneuroosomes. 2003 , 50, 212-22		13
220	The localisation of the extraneuronal monoamine transporter (EMT) in rat brain. <i>Journal of Neurochemistry</i> , 2004 , 88, 291-7	6	42
219	The dopamine transporter constitutively internalizes and recycles in a protein kinase C-regulated manner in stably transfected PC12 cell lines. <i>Journal of Biological Chemistry</i> , 2003 , 278, 22168-74	5.4	201
218	Pharmacology and expression analysis of glycine transporter GlyT1 with [3H]-(N-[3-(4Sfluorophenyl)-3-(4Sphenylphenoxy)propyl])sarcosine. <i>Neuropharmacology</i> , 2003 , 45, 585-93 ^{5.5}		69
217	Serotonin transport is modulated differently by tetanus toxin and growth factors. <i>Neurochemistry International</i> , 2003 , 42, 535-42	4.4	10
216	Effect of sodium lithium and proton concentrations on the electrophysiological properties of the four mouse GABA transporters expressed in <i>Xenopus oocytes</i> . <i>Neurochemistry International</i> , 2003 , 43, 431-43	4.4	18
215	Characterization of modes of release of amino acids in the ischemic/reperfused rat cerebral cortex. <i>Neurochemistry International</i> , 2003 , 43, 461-7	4.4	95
214	Mutations in the lipid-binding domain of alpha-synuclein confer overlapping, yet distinct, functional properties in the regulation of dopamine transporter activity. <i>Molecular and Cellular Neurosciences</i> , 2003 , 24, 91-105	4.8	47
213	Inactivation of the glycine transporter 1 gene discloses vital role of glial glycine uptake in glycinergic inhibition. 2003 , 40, 785-96		263
212	Deletion of the mouse glycine transporter 2 results in a hyperekplexia phenotype and postnatal lethality. 2003 , 40, 797-806		253
211	Evidence for distinct sodium-, dopamine-, and cocaine-dependent conformational changes in transmembrane segments 7 and 8 of the dopamine transporter. <i>Journal of Biological Chemistry</i> , 2003 , 278, 30587-96	5.4	25
210	Modulation of dopamine transporter function by alpha-synuclein is altered by impairment of cell adhesion and by induction of oxidative stress. 2003 , 17, 2151-3		119
209	Signaling pathways take aim at neurotransmitter transporters. 2003 , 2003, pe50		5
208	The glycine neurotransmitter transporter GLYT1 is an organic osmolyte transporter regulating cell volume in cleavage-stage embryos. <i>Proceedings of the National Academy of Sciences of the United States of America</i> , 2003 , 100, 13982-7	11.5	88
207	Transmembrane domain I of the gamma-aminobutyric acid transporter GAT-1 plays a crucial role in the transition between cation leak and transport modes. <i>Journal of Biological Chemistry</i> , 2003 , 278, 37052-12 ^{5.12}		48
206	The anticonvulsant valproate increases the turnover rate of gamma-aminobutyric acid transporters. <i>Journal of Biological Chemistry</i> , 2003 , 278, 17716-26	5.4	28
205	The interaction of the gamma-aminobutyric acid transporter GAT-1 with the neurotransmitter is selectively impaired by sulfhydryl modification of a conformationally sensitive cysteine residue engineered into extracellular loop IV. <i>Journal of Biological Chemistry</i> , 2003 , 278, 42950-8	5.4	43
204	Calcium-dependent inhibition of synaptosomal serotonin transport by the alpha 2-adrenoceptor agonist 5-bromo-N-[4,5-dihydro-1H-imidazol-2-yl]-6-quinoxalinamine (UK14304). 2003 , 305, 956-65		35

203	Blockade of G protein-coupled receptors and the dopamine transporter by a transmembrane domain peptide: novel strategy for functional inhibition of membrane proteins in vivo. 2003 , 307, 481-9		26
202	A mutation in the human norepinephrine transporter gene (SLC6A2) associated with orthostatic intolerance disrupts surface expression of mutant and wild-type transporters. 2003 , 23, 4470-8		109
201	Electrophysiological insights into the mechanism of ion-coupled cotransporters. 2004 , 19, 80-4		15
200	Transmembrane domains I and II of the gamma-aminobutyric acid transporter GAT-4 contain molecular determinants of substrate specificity. 2004 , 65, 1452-61		29
199	Hypertension and impaired glycine handling in mice lacking the orphan transporter XT2. 2004 , 24, 4166-73		47
198	The chicken serotonin transporter discriminates between serotonin-selective reuptake inhibitors. A species-scanning mutagenesis study. <i>Journal of Biological Chemistry</i> , 2004 , 279, 42147-56	5-4	46
197	The mutation F227I increases the coupling of metal ion transport in DCT1. <i>Journal of Biological Chemistry</i> , 2004 , 279, 53056-61	5-4	26
196	The aqueous accessibility in the external half of transmembrane domain I of the GABA transporter GAT-1 is modulated by its ligands. <i>Journal of Biological Chemistry</i> , 2004 , 279, 13800-8	5-4	39
195	The second intracellular loop of the glycine transporter 2 contains crucial residues for glycine transport and phorbol ester-induced regulation. <i>Journal of Biological Chemistry</i> , 2004 , 279, 22934-43	5-4	26
194	G-protein coupled receptors: SAR analyses of neurotransmitters and antagonists. 2004 , 29, 279-98		12
193	Pharmacological characterization of human excitatory amino acid transporters EAAT1, EAAT2 and EAAT3 in a fluorescence-based membrane potential assay. 2004 , 67, 2115-27		61
192	The brain-to-blood efflux transport of taurine and changes in the blood-brain barrier transport system by tumor necrosis factor-alpha. 2004 , 1023, 141-7		32
191	Creatine transporters: a reappraisal. 2004 , 256-257, 407-24		53
190	Taurine biosynthetic enzymes and taurine transporter: molecular identification and regulations. <i>Neurochemical Research</i> , 2004 , 29, 83-96	4.6	78
