

CITATION REPORT

List of articles citing

Circulating endothelial progenitor cells, vascular function, and cardiovascular risk

DOI: 10.1056/nejmoa022287

New England Journal of Medicine, 2003, 348, 593-600.

Version: 2024-04-10

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
2285	Size-dependent myelinated fiber loss in the corticospinal tract in Shy-Drager syndrome and amyotrophic lateral sclerosis. 1987 , 37, 529-32		55

846 Research Highlights. **2011**, 6, 31-34

845 Vitamin D deficiency is associated with depletion of circulating endothelial progenitor cells and endothelial dysfunction in patients with type 2 diabetes. **2011**, 96, E830-5 96

844 [Stem cell therapy in vascular medicine]. **2011**, 136, 399-403 0

843 Maximal exercise, limb ischemia, and endothelial progenitor cells. **2011**, 18, 55-64 34

842 Stromal-derived factor-1[alpha] correlates with circulating endothelial progenitor cells and with acute lesion volume in stroke patients. **2011**, 42, 618-25 57

841 Endothelial progenitor cells in primary aldosteronism: a biomarker of severity for aldosterone vasculopathy and prognosis. **2011**, 96, 3175-83 60

840 The assessment of vascular function during dietary intervention trials in human subjects. **2011**, 106, 981-94 12

839 Endothelial Colony-forming Progenitor Cells: Identification, Isolation, Expansion and Potential Use for Regenerative Cell Therapy. **2011**, 1, 1-13

838 Bone marrow mononuclear cells versus G-CSF-mobilized peripheral blood mononuclear cells for treatment of lower limb ASO: pooled analysis for long-term prognosis. **2011**, 46, 278-84 35

837 Interactive effect of combined exposure to active and passive smoking on cardiovascular system. **2011**, 6, 61-9 15

836 Endothelial progenitor cells=EPC=elemental pernicious complexity. **2011**, 15, 911-4 4

835 Methods for evaluating endothelial function: a position statement from the European Society of Cardiology Working Group on Peripheral Circulation. **2011**, 18, 775-89 203

834 Improved mobilization of the CD34(+) and CD133(+) bone marrow-derived circulating progenitor cells by freshly isolated intracoronary bone marrow cell transplantation in patients with ischemic heart disease. **2011**, 20, 1491-501 18

833 Critical role of the nitric oxide/reactive oxygen species balance in endothelial progenitor dysfunction. **2011**, 15, 933-48 68

832 Primary cerebral blood flow deficiency and Alzheimer's disease: shadows and lights. **2011**, 23, 375-89 86

831 Enhancing treatment for cardiovascular disease: exercise and circulating angiogenic cells. **2011**, 39, 93-101 13

830 Exercise training improves in vivo endothelial repair capacity of early endothelial progenitor cells in subjects with metabolic syndrome. **2011**, 18, 406-14 28

829 Adiponectin pretreatment counteracts the detrimental effect of a diabetic environment on endothelial progenitors. **2011**, 60, 652-61 27

828	Vascular function and circulating progenitor cells in thromboangitis obliterans (Buerger's disease) and atherosclerosis obliterans. 2011 , 57, 70-8	21
827	Endothelial progenitor cells in cardiovascular disease and chronic inflammation: from biomarker to therapeutic agent. 2011 , 5, 731-44	48
826	Intradialytic hypertension and its association with endothelial cell dysfunction. 2011 , 6, 2016-24	43
825	Circulating endothelial progenitor cells in women with gestational alterations of glucose tolerance. 2011 , 8, 202-10	9
824	Effect of darbepoetin alfa on endothelial progenitor cells and vascular reactivity in chronic kidney disease. 2011 , 16, 183-9	8
823	Migraine is associated with an increased risk of cervicocephalic arterial dissection. 2011 , 31, 884-5	4
822	Enhanced angiogenesis by transplantation of mesenchymal stem cell sheet created by a novel magnetic tissue engineering method. 2011 , 31, 2210-5	73
821	Nocturnal hemodialysis is associated with restoration of early-outgrowth endothelial progenitor-like cell function. 2011 , 6, 1345-53	17
820	Endothelial cells derived from human iPSCs increase capillary density and improve perfusion in a mouse model of peripheral arterial disease. 2011 , 31, e72-9	197
819	Vascular progenitor cells in chronic obstructive pulmonary disease. 2011 , 8, 528-34	11
818	mTOR complex 2 activation by reconstituted high-density lipoprotein prevents senescence in circulating angiogenic cells. 2011 , 31, 1421-9	3
817	Dietary intake of phytoestrogen is associated with increased circulating endothelial progenitor cells in patients with cardiovascular disease. 2011 , 18, 360-8	19
816	Circulating endothelial progenitor cells and chronic pulmonary diseases. 2011 , 37, 426-31	30
815	Aging is associated with a proapoptotic endothelial progenitor cell phenotype. 2011 , 48, 408-14	29
814	Batroxobin mobilizes circulating endothelial progenitor cells in patients with deep vein thrombosis. 2011 , 17, 75-9	12
813	Angiotensin II and the vascular phenotype in hypertension. 2011 , 13, e11	118
