

CITATION REPORT

List of articles citing

The axonal chemorepellant semaphorin 3A is increased in the cerebellum in schizophrenia and may contribute to its synaptic pathology

DOI: 10.1038/sj.mp.4001233
Molecular Psychiatry, 2003, 8, 148-55.

Source: <https://exaly.com/paper-pdf/35280732/citation-report.pdf>

Version: 2024-04-23

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.
