**Version:** 2024-04-28

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

- 8 Robust reward-risk performance measures with weakly second-order stochastic dominance constraints. **2023**, 88, 53-62 ○
- 7 On second-order conic programming duals for robust convex quadratic optimization problems. **2023**, 0-0 ○
- 6 Research On Portfolio Construction for Information Technology and Communication Service Industries Based on The Monte Carlo Simulation. 5, 447-455 ○
- 5 Data-driven robust portfolio optimization with semi mean absolute deviation via support vector clustering. **2023**, 224, 120000 ○
- 4 A Dynamic Trading Model for Use with a One Step Ahead Optimal Strategy. ○
- 3 Portfolio selection with exploration of new investment assets. **2023**, ○
- 2 Robust Portfolio Selection with Distributional Uncertainty and Integer Constraints. ○
- 1 An Exponential Cone Programming Approach for Managing Electric Vehicle Charging. ○
