Version: 2024-04-25

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
1300	Ethical Aspects of Infection Prevention. 1-12		
1299	Environmental sampling of <i>Acinetobacter baumannii</i> : moistened swabs versus moistened sterile gauze pads. <i>Infection Control and Hospital Epidemiology</i> , 1999 , 20, 458-60	2	29
1298	The endogenous pathway is a major route for deep sternal wound infection. 2000 , 17, 154-60		108
1297	Count processes; counting towels; intraoperative sneezes; sponge disposal; contact precautions. 2001 , 74, 393-396		1
1296	The evolution of pandemic clones of methicillin-resistant <i>Staphylococcus aureus</i> : identification of two ancestral genetic backgrounds and the associated <i>mec</i> elements. 2001 , 7, 349-61		236
1295	Can antibiotic-resistant nosocomial infections be controlled?. 2001 , 1, 38-45		67
1294	MRSA: Monitoring Quality. 2001 , 2, 20-23		5
1293	Home hygiene practices and infectious disease symptoms among household members. 2001 , 18, 116-27		28
1292	Novel regenerable N-halamine polymeric biocides. III. Grafting hydantoin-containing monomers onto synthetic fabrics. 2001 , 81, 1517-1525		72
1291	Guideline for Hand Hygiene in Health-Care Settings: recommendations of the Healthcare Infection Control Practices Advisory Committee and the HICPAC/SHEA/APIC/IDSA Hand Hygiene Task Force. <i>Infection Control and Hospital Epidemiology</i> , 2002 , 23, S3-40	2	740
1290	Controlling methicillin-resistant <i>Staphylococcus aureus</i> : a feedback approach using annotated statistical process control charts. <i>Infection Control and Hospital Epidemiology</i> , 2002 , 23, 13-8	2	53
1289	A quantitative study of the survival of two species of <i>Candida</i> on porous and non-porous environmental surfaces and hands. 2002 , 92, 549-55		51
1288	Bacterial contamination of computer keyboards in a teaching hospital. <i>Infection Control and Hospital Epidemiology</i> , 2003 , 24, 302-3	2	91
1287	Control of nosocomial methicillin-resistant <i>Staphylococcus aureus</i> : where shall we send our hospital director next time?. <i>Infection Control and Hospital Epidemiology</i> , 2003 , 24, 314-6	2	25
1286	Dinosaurs, methicillin-resistant <i>Staphylococcus aureus</i> , and infection control personnel: survival through translating science into prevention. <i>Infection Control and Hospital Epidemiology</i> , 2003 , 24, 392-6 ²		10
1285	More evidence of the benefits of rational antimicrobial use in clinical practice. <i>Infection Control and Hospital Epidemiology</i> , 2003 , 24, 642-3	2	5
1284	Hand antisepsis: evaluation of a sprayer system for alcohol distribution. <i>Infection Control and Hospital Epidemiology</i> , 2003 , 24, 637; author reply 637-8	2	

1283	Use of glycopeptides at a French teaching hospital. <i>Infection Control and Hospital Epidemiology</i> , 2003 , 24, 638-9	2	1
1282	SHEA guideline for preventing nosocomial transmission of multidrug-resistant strains of <i>Staphylococcus aureus</i> and <i>Enterococcus</i> . <i>Infection Control and Hospital Epidemiology</i> , 2003 , 24, 639-41	2	46
1281	Cost-effectiveness of perirectal surveillance cultures for controlling vancomycin-resistant <i>Enterococcus</i> . <i>Infection Control and Hospital Epidemiology</i> , 2003 , 24, 309-10; author reply 310-2	2	6
1280	Nosocomial outbreak of <i>Serratia marcescens</i> in a neonatal intensive care unit. <i>Infection Control and Hospital Epidemiology</i> , 2003 , 24, 312; author reply 312-3	2	1
