

Sex- and race-related differences in cross-sectional geometry of the femoral mid-shaft in older adults

Annals of Human Biology

30, 329-346

DOI: [10.1080/0301446031000089588](https://doi.org/10.1080/0301446031000089588)
