

CITATION REPORT

List of articles citing

Head-Driven Statistical Models for Natural Language Parsing

DOI: 10.1162/089120103322753356

Computational Linguistics, 2003, 29, 589-637.

Version: 2024-04-27

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.
