

CITATION REPORT

List of articles citing

Inhibition of glutamate receptor 2 translation by a polymorphic repeat sequence in the 5s untranslated leaders

DOI: 10.1523/jneurosci.4127-03.2004

Journal of Neuroscience, 2004, 24, 3489-99.

Version: 2024-04-28

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.
