

CITATION REPORT

List of articles citing

Minimal change esophagitis: prospective comparison of endoscopic and histological markers between patients with non-erosive reflux disease and normal controls using magnifying endoscopy

DOI: 10.1159/000080323

Digestive Diseases, 2004, 22, 221-7.

Source: <https://exaly.com/paper-pdf/36588856/citation-report.pdf>

Version: 2024-04-25

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
129	Chromoendoscopy and magnifying endoscopy in patients with gastroesophageal reflux disease. Useful or negligible?. <i>Digestive Diseases</i> , 2004 , 22, 142-7	3.2	19
128	Esophageal biopsy in children--essential, valuable, or a waste of time? It all depends. 2005 , 41 Suppl 1, S24-7		5
127	MAGNIFICATION ENDOSCOPY IN THE UPPER GI TRACT. 2005 , 17, S17-S19		1
126	Minimal change oesophagitis: a disease with characteristic differences to erosive oesophagitis. <i>Alimentary Pharmacology and Therapeutics</i> , 2005 , 21 Suppl 2, 19-26	6.1	52
125	Review article: how valuable are proton-pump inhibitors in establishing a diagnosis of gastro-oesophageal reflux disease?. <i>Alimentary Pharmacology and Therapeutics</i> , 2005 , 22 Suppl 1, 64-9	6.1	66
124	A prospective multicenter clinical and endoscopic follow-up study of patients with gastroesophageal reflux disease. 2005 , 43, 1303-7		12
123	Does endoscopic appearance of esophagus always suffice the diagnosis of esophagitis in patients presenting with otolaryngologic symptoms?. 2005 , 100, 1420; author reply 1420-1		
122	Psychological support counseling: a new strategy to increase gluten-free diet compliance in celiac patients. 2005 , 100, 1424-5		2
121	Sleep Apnea Obstructive Syndrome: A New Complication Previously Undescribed in Cirrhotic Patients with Ascites: Response to Drs. Golpe and Mateos. 2005 , 100, 1423-1423		
120	The Value of p-Value. 2005 , 100, 1427-8		3
119	Does Endoscopic Appearance of Esophagus Always Suffice the Diagnosis of Esophagitis in Patients Presenting with Otolaryngologic Symptoms?. 2005 , 100, 1420-1421		1
118	Idiopathic myointimal hyperplasia of the mesenteric veins: a rare diagnostic pitfall. 2005 , 100, 1423-4		8
117	The Relationship between Plasma and Gastric Ghrelin Levels and Strain Diversity in <i>Helicobacter pylori</i> Virulence. 2005 , 100, 1425-7		16
116	Obstructive sleep apnea: a complication in cirrhotic patients with ascites?. 2005 , 100, 1421-3; author reply 1423; author reply 1423		2
115	Reassessment of the diagnostic value of histology in patients with GERD, using multiple biopsy sites and an appropriate control group. 2005 , 100, 2299-306		160
114	High prevalence of gastroesophageal reflux disease with minimal mucosal change in asthmatic patients. 2006 , 209, 329-36		16
113	Novel developments in non-erosive and erosive gastroesophageal reflux disease. 2006 , 22, 399-405		1

112	Non-erosive reflux disease, functional heartburn and gastroesophageal reflux disease; insights into pathophysiology and clinical presentation. 2006 , 7, 186-90	11
111	Magnifying chromoendoscopy for the detection of premalignant gastrointestinal lesions. 2006 , 20, 59-78	11
110	Will symptomatic gastroesophageal reflux disease develop into reflux esophagitis?. 2006 , 41, 440-3	20
109	<i>Helicobacter pylori</i> eradication therapy on histologic change in the distal esophagus. 2006 , 11, 217-23	5
