

CITATION REPORT

List of articles citing

High AST/ALT ratio may indicate advanced alcoholic liver disease rather than heavy drinking

DOI: 10.1093/alcalc/agh074
Alcohol and Alcoholism, 2004, 39, 336-9.

Version: 2024-04-27

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.
