

Topical aminolaevulinic acid-photodynamic therapy for study of clinical efficacy and mechanism of action

British Journal of Dermatology

151, 616-622

DOI: [10.1111/j.1365-2133.2004.06110.x](https://doi.org/10.1111/j.1365-2133.2004.06110.x)
