

Security issues arising in establishing a regional health

International Journal of Medical Informatics

73, 285-290

DOI: [10.1016/j.ijmedinf.2003.11.010](https://doi.org/10.1016/j.ijmedinf.2003.11.010)

Citation Report

| # | ARTICLE  | IF  | CITATIONS |
|---|--|-----|-----------|
| 1 | Incremental Adoption of Information Security in Health-Care Organizations: Implications for Document Management. IEEE Transactions on Information Technology in Biomedicine, 2005, 9, 169-173. | 3.2 | 21        |
| 2 | Demographic management in a federated healthcare environment. International Journal of Medical Informatics, 2006, 75, 671-682.   | 3.3 | 13        |
| 3 | Modeling the healthcare assistance process for comorbidity patients compliant with prEN12967. , 2006, 2006, 4062-5.  |     | 0         |
| 4 | Modeling in biomedical informatics—An exploratory analysis. International Journal of Medical Informatics, 2007, 76, 96-102.  | 3.3 | 12        |
| 5 | A SOA approach to the implementation of an electronic medical record. International Journal of Applied Systemic Studies, 2010, 3, 343.   | 0.1 | 5         |
| 6 | Architecture of a consent management suite and integration into IHE-based regional health information networks. BMC Medical Informatics and Decision Making, 2011, 11, 58.                     | 3.0 | 29        |
