

CITATION REPORT

List of articles citing

2nd to 4th digit ratios, fetal testosterone and estradiol

DOI: 10.1016/j.earlhumdev.2003.12.002

Early Human Development, 2004, 77, 23-8.

Version: 2024-04-28

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
753	References. 2001 , 283-344		
752	Antenatal maternal anxiety is linked with atypical handedness in the child. <i>Early Human Development</i> , 2004 , 79, 107-18	2.2	83
751	Current awareness in prenatal diagnosis. 2004 , 24, 845-850		1
750	Second to fourth digit ratio and hand skill in Austrian children. <i>Biological Psychology</i> , 2004 , 67, 375-84	3.2	67
749	The neurodevelopment of human sexual orientation. 2005 , 29, 1057-66		114
748	Individual differences in women's facial preferences as a function of digit ratio and mental rotation ability. 2005 , 26, 509-526		49
747	Lack of correlation between 2D:4D ratio and assertiveness in college age women. 2005 , 39, 115-121		10
746	Sexually dimorphic 2D:4D ratio, height, weight, and their relation to number of sexual partners. 2005 , 39, 83-92		21
745	Second-to-fourth digit ratio related to Verbal and Numerical Intelligence and the Big Five. 2005 , 39, 959-966		55
744	Fluctuating asymmetry, second to fourth finger length ratios and human sexual orientation. 2005 , 30, 382-91		61
743	Sexual dimorphism in metapodial and phalanges length ratios in the wood mouse. 2005 , 286, 955-61		27
742	The second to fourth digit ratio in elite and non-elite female athletes. <i>American Journal of Human Biology</i> , 2005 , 17, 796-800	2.7	62
741	Prenatal sex hormone effects on child and adult sex-typed behavior: methods and findings. 2005 , 29, 353-84		440
740	Digit ratio (2D:4D) in homosexual and heterosexual men from Austria. 2005 , 34, 335-40		34
739	A reanalysis of five studies on sexual orientation and the relative length of the 2nd and 4th fingers (the 2D:4D ratio). 2005 , 34, 341-56		93
738	Quantitative genetics and behavioural correlates of digit ratio in the zebra finch. 2005 , 272, 2641-9		67
737	Anatomical evidence for in utero androgen exposure in women with polycystic ovary syndrome. 2005 , 84, 1689-92		72

736	The potential importance of steroids in the treatment of autistic spectrum disorders and other disorders involving mercury toxicity. 2005 , 64, 946-54		20
735	Experimental manipulation of yolk testosterone affects digit length ratios in the ring-necked pheasant (<i>Phasianus colchicus</i>). 2005 , 48, 342-6		75
734	Sex differences in the brain: implications for explaining autism. 2005 , 310, 819-23		745
733	A specific sexual orientation-related difference in navigation strategy. 2005 , 119, 311-6		34
732	Second to fourth digit ratio and face shape. 2005 , 272, 1995-2001		113
731	Fetal testosterone and empathy: evidence from the empathy quotient (EQ) and the "reading the mind in the eyes" test. 2006 , 1, 135-48		268
730	The second to fourth digit ratio and asymmetry. 2006 , 33, 480-92		32
729	Examination marks of male university students positively correlate with finger length ratios (2D:4D). <i>Biological Psychology</i> , 2006 , 71, 175-82	3.2	30
728	Digit ratio and faculty membership: implications for the relationship between prenatal testosterone and academia. 2006 , 97, 455-66		33
727	The use of digit ratios as markers for perinatal androgen action. 2006 , 4, 10		205
726	Digit ratio (2D:4D), lateral preferences, and performance in fencing. 2006 , 103, 427-46		77
725	Second to fourth digit ratio and numerical competence in children. 2006 , 61, 211-8		22
724	Testosterone: activation or organization of spatial cognition?. <i>Biological Psychology</i> , 2006 , 73, 132-40	3.2	79
723	Sex and side differences in relative thumb length. 2006 , 31, 326-7; author reply 327		6
722	A longitudinal study of digit ratio (2D:4D) and other finger ratios in Jamaican children. 2006 , 49, 150-6		243
721	Finger-length ratios show evidence of prenatal hormone-transfer between opposite-sex twins. 2006 , 49, 315-9		123
720	Digit ratio (2D:4D) and physical fitness in males and females: Evidence for effects of prenatal androgens on sexually selected traits. 2006 , 49, 545-9		136
719	Digit ratio (2D:4D) and the spatial representation of magnitude. 2006 , 50, 194-9		31

718	Mate choice decisions: the role of facial beauty. 2006 , 10, 9-13	66
717	Differences in finger length ratio between males with autism, pervasive developmental disorder-not otherwise specified, ADHD, and anxiety disorders. 2006 , 48, 962-5	120
716	Preliminary evidence that gonadal hormones organize and activate disordered eating. 2006 , 36, 539-46	92
715	Heritability of the Second to Fourth Digit Ratio (2d:4d): A Twin Study. 2006 , 9, 215-219	106
714	News Using the length of the 2nd to 4th digit ratio (2D:4D) to sex cave art hand stencils: factors to consider. 2006 , 2006, 1-7	11
713	Of mice and men--cross-species digit ratio (2D:4D) research: comment on Bailey, Wahlsten and Hurd (2005). 2006 , 5, 299-300; author reply 300-2	15
712	Population differences in finger-length ratios: ethnicity or latitude?. 2006 , 35, 739-42	33
711	Human digit ratios depend on birth order and sex of older siblings and predict maternal fecundity. 2006 , 60, 34-45	30
710	Length of index and ring fingers differentially influence sexual attractiveness of men's and women's hands. 2006 , 60, 447-454	20
709	Fetal development of the hand, digits and digit ratio (2D:4D). <i>Early Human Development</i> , 2006 , 82, 469-75.2	293
708	Second to fourth digit ratio and sensation seeking. 2006 , 41, 1253-1262	70
707	Lack of correlation between digit ratio (2D:4D) and Baron-Cohen's Reading the Mind in the Eyes test, empathy, systemising, and autism-spectrum quotients in a general population sample. 2006 , 41, 1481-1491	150
706	2nd to 4th digit ratio (2D:4D) and number of sex partners: evidence for effects of prenatal testosterone in men. 2006 , 31, 30-7	55
705	Sexual dimorphism in digit length ratios in two lizard species. 2006 , 288, 491-7	44
704	Digit ratio and hand-grip strength in German and Mizos men: cross-cultural evidence for an organizing effect of prenatal testosterone on strength. <i>American Journal of Human Biology</i> , 2006 , 18, 776-82	2.7 110
703	Sex dimorphism in digital formulae of children. 2006 , 129, 143-50	95
702	The big finger: the second to fourth digit ratio is a predictor of sporting ability in women. 2006 , 40, 981-3	66
701	Fetal testosterone and sex differences in typical social development and in autism. 2006 , 21, 825-45	174

700	Digit ratio (2D:4D) moderates the impact of sexual cues on men's decisions in ultimatum games. 2006 , 273, 2091-5		83
699	The 2nd-4th digit ratio (2D:4D) and neck circumference: implications for risk factors in coronary heart disease. 2006 , 30, 711-4		60
698	Evidence for assortative mating on digit ratio (2D:4D), a biomarker for prenatal androgen exposure. 2007 , 39, 599-612		61
697	Cohort profile: the Dutch Hunger Winter families study. 2007 , 36, 1196-204		260
696	The Tell-Tale Hand. 2007 , 28, 88-97		20
695	No relation between 2D : 4D fetal testosterone marker and dyslexia. 2007 , 18, 1487-91		12
694	Sex differences in oxytocin and vasopressin: implications for autism spectrum disorders?. 2007 , 176, 170-86		329
693	On a possible early identification procedure for babies at high risk for autistic spectrum disorder. 2007 , 69, 47-51		4
692	Reversal of normal cerebral sexual dimorphism in schizophrenia: evidence and speculations. 2007 , 69, 896-902		60
691	The EPIC model of functional asymmetries: implications for research on laterality in the auditory and other systems. 2007 , 12, 3734-56		6
690	Endurance running and digit ratio (2D:4D): implications for fetal testosterone effects on running speed and vascular health. <i>American Journal of Human Biology</i> , 2007 , 19, 416-21	2.7	109
689	Index-to-ring finger length ratio (2D:4D) predicts levels of salivary estradiol, but not progesterone, over the menstrual cycle. <i>American Journal of Human Biology</i> , 2007 , 19, 434-6	2.7	31
688	Can a sexually dimorphic index of prenatal hormonal exposure be used to examine cold pressor pain perception in men and women?. 2007 , 11, 231-6		15
687	Sporting achievement: what is the contribution of digit ratio?. 2007 , 75, 663-77		61
686	Human 2D (index) and 4D (ring) digit lengths: their variation and relationships during the menstrual cycle. 2007 , 211, 630-8		35
685	Radiographic assessment of the index to ring finger ratio (2D:4D) in adults. 2008 , 212, 42-8		44
684	Differences in finger length ratio between males with autism, pervasive developmental disorder-not otherwise specified, ADHD, and anxiety disorders. 2007 , 48, 962-965		3
683	Maternal smoking during pregnancy and possible effects of in utero testosterone: evidence from the 2D:4D finger length ratio. <i>Early Human Development</i> , 2007 , 83, 87-90	2.2	53

682	Phenotypic correlates of digit ratio in a wild bird: implications for the study of maternal effects. 2007 , 74, 641-647	15
681	The 2nd to 4th digit ratio and developmental psychopathology in school-aged children. 2007 , 42, 369-379	63
680	A preliminary investigation of the associations between digit ratio and women's perception of men's dance. 2007 , 42, 381-390	26
679	Sexual dimorphism in second-to-fourth digit ratio and its relation to gender-role orientation in males and females. 2007 , 42, 911-920	25
678	Associations between the second to fourth digit ratio and career interests. 2007 , 43, 485-493	27
677	Directional asymmetry (right-left differences) in digit ratio (2D:4D) predict indirect aggression in women. 2007 , 43, 865-872	95
676	Second to fourth digit ratios and the implicit gender self-concept. 2007 , 43, 1267-1277	11
675	Second to fourth digit length ratio (2D:4D) and adult sex hormone levels: new data and a meta-analytic review. 2007 , 32, 313-21	259
674	Increased egg estradiol concentration feminizes digit ratios of male pheasants (<i>Phasianus colchicus</i>). 2007 , 94, 207-12	54
673	Digit ratios (2D:4D), secondary sexual characters and cell-mediated immunity in house sparrows <i>Passer domesticus</i> . 2007 , 61, 1161-1168	28
672	2D:4D and sexually dimorphic facial characteristics. 2007 , 36, 377-84	58
671	The effects of sex, ethnicity, and sexual orientation on self-measured digit ratio (2D:4D). 2007 , 36, 223-33	197
670	Visuo-spatial processing in autism--testing the predictions of extreme male brain theory. 2008 , 38, 507-15	80
669	Intrauterine position effects on anogenital distance and digit ratio in male and female mice. 2008 , 37, 9-18	36
668	On the relation between 2D:4D and sex-dimorphic personality traits. 2008 , 37, 133-44	103
667	Sexual orientation and fluctuating asymmetry in men and women. 2008 , 37, 158-65	17
666	Relationships between finger-length ratios, ghrelin, leptin, IGF axis, and sex steroids in young male and female swimmers. 2008 , 104, 523-9	15
665	Digit ratio (2D:4D) and Cattell's personality traits. 2008 , 22, 347-356	18

664	Sexual orientation-related differences in allocentric spatial memory tasks. 2008 , 18, 55-63		28
663	Index to ring finger length ratio and the risk of osteoarthritis. 2008 , 58, 137-44		55
662	Digit ratios in green anolis lizards (<i>Anolis carolinensis</i>). 2008 , 291, 433-40		27
661	Digit ratio in birds. 2008 , 291, 1611-8		23
660	The second to fourth digit ratio (2D:4D) in women with and without human papillomavirus and cervical dysplasia. <i>American Journal of Human Biology</i> , 2008 , 20, 337-41	2.7	25
659	Low digit ratio (2D:4D) is associated with delayed menarche. <i>American Journal of Human Biology</i> , 2008 , 20, 487-9	2.7	43
658	Digit ratio (2D:4D), dominance, reproductive success, asymmetry, and sociosexuality in the BBC Internet Study. <i>American Journal of Human Biology</i> , 2008 , 20, 451-61	2.7	140
657	Maternal 2nd to 4th digit ratio does not predict lifetime offspring sex ratio at birth. <i>American Journal of Human Biology</i> , 2008 , 20, 700-3	2.7	11
656	Brief Communication: Latent toxoplasmosis and salivary testosterone concentration--important confounding factors in second to fourth digit ratio studies. 2008 , 137, 479-84		35
655	Digit ratio as an indicator of numeracy relative to literacy in 7-year-old British schoolchildren. 2008 , 99, 75-85		19
654	Human 2D (index) and 4D (ring) finger lengths and ratios: cross-sectional data on linear growth patterns, sexual dimorphism and lateral asymmetry from 4 to 60 years of age. 2008 , 213, 325-35		42
653	Avian hind-limb digit length ratios measured from radiographs are sexually dimorphic. 2008 , 213, 425-30		14
652	Maternal antenatal anxiety and amniotic fluid cortisol and testosterone: possible implications for foetal programming. 2008 , 20, 489-96		102
651	Digit ratio unaffected by estradiol treatment of zebra finch nestlings. 2008 , 156, 379-84		14
650	Second to fourth digit ratio (2D:4D) of the right hand is associated with nociception and augmenting-reducing. 2008 , 45, 493-497		14
649	Heterogeneity and hypothesis testing in neuropsychiatric illness. 2008 , 31, 266-267		6
648	Autism. 2008 ,		11
647	Blocks and bodies: sex differences in a novel version of the Mental Rotations Test. 2008 , 53, 177-84		52

646	2d:4d, sex steroid hormones and human psychological sex differences. 2008 , 54, 340-6	21
645	2D:4D finger-length ratios in children and adults with gender identity disorder. 2008 , 54, 450-4	107
644	A new means of measuring index/ring finger (2D:4D) ratio and its association with gender and hand preference. 2008 , 13, 71-91	33
643	Digit ratio (2D:4D) in individuals with intellectual disability: investigating the role of testosterone in the establishment of cerebral lateralisation. 2008 , 13, 527-44	20
642	Digit ratios, secondary sexual characters and condition in barn swallows <i>Hirundo rustica</i> . 2008 , 19, 16-21	25
641	Animal models may help fractionate shared and discrete pathways underpinning schizophrenia and autism. 2008 , 31, 264-265	
640	A complete theory of psychosis and autism as diametric disorders of social brain must consider full range of clinical syndromes. 2008 , 31, 277-278	1
639	Is this conjectural phenotypic dichotomy a plausible outcome of genomic imprinting?. 2008 , 31, 267-268	2
