List of articles citing

Anti-Müllerian hormone expression pattern in the human ovary: potential implications for initial and cyclic follicle recruitment

DOI: 10.1093/molehr/gah015

Molecular Human Reproduction, 2004, 10, 77-83.

Version: 2024-04-29

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.
