

CITATION REPORT

List of articles citing

Emergence of broadband Rayleigh waves from correlations of the ambient seismic noise

DOI: 10.1029/2004gl019491

Geophysical Research Letters, 2004, 31, n/a-n/a.

Source: <https://exaly.com/paper-pdf/37381750/citation-report.pdf>

Version: 2024-04-28

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
969	Diffuse fields in open systems and the emergence of the Green's function (L). 2004 , 116, 2731-2734		247
968	The mean and variance of diffuse field correlations in finite bodies. 2005 , 118, 3447-3456		23
967	Arrival-time structure of the time-averaged ambient noise cross-correlation function in an oceanic waveguide. 2005 , 117, 164-74		110
966	Emergence rate of the time-domain Green's function from the ambient noise cross-correlation function. 2005 , 118, 3524-3531		129
965	Fluctuations in diffuse field-field correlations and the emergence of the Green's function in open systems. 2005 , 117, 3432-9		73
964	Passive retrieval of Rayleigh waves in disordered elastic media. 2005 , 72, 046607		39
963	Ambient noise cross correlation in free space: theoretical approach. 2005 , 117, 79-84		301
962	P-waves from cross-correlation of seismic noise. <i>Geophysical Research Letters</i> , 2005 , 32, n/a-n/a	4.9	212
961	Using ocean ambient noise for array self-localization and self-synchronization. 2005 , 30, 338-347		86
960	High-resolution surface-wave tomography from ambient seismic noise. 2005 , 307, 1615-8		1418
959	Extracting time-domain Green's function estimates from ambient seismic noise. <i>Geophysical Research Letters</i> , 2005 , 32,	4.9	326
958	Empirical synthesis of time-asymmetrical Green functions from the correlation of coda waves. 2005 , 110,		115
957	Surface wave tomography from microseisms in Southern California. <i>Geophysical Research Letters</i> , 2005 , 32, n/a-n/a	4.9	406
956	Lunar subsurface investigated from correlation of seismic noise. <i>Geophysical Research Letters</i> , 2005 , 32,	4.9	75
955	On the correlation of seismic microtremors. 2005 , 110,		55
954	Green's functions extraction and surface-wave tomography from microseisms in southern California. 2006 , 71, SI23-SI31		98
953	Green's function representations for seismic interferometry. 2006 , 71, SI33-SI46		475

- 5 Surface-wave dispersion curves extraction method from ambient noise based on U-net++ and density clustering algorithm. **2023**, 213, 105040
- 4 Surface Wave Dispersion Measurement with Polarization Analysis Using Multicomponent Seismic Noise Recorded by a 1-D Linear Array.
- 3 A Novel Population of Slow Magnetosonic Waves and a Method for the Observation of the Roots of Plasma Bubbles in the Lower Ionosphere. **2023**, 128,
- 2 Imaging an Enigmatic Paleovalley with Passive Seismic Methods (Unaweep Canyon, Colorado, United States). **2023**, 3, 116-124
- 1 Single-Point Dispersion Measurement of Surface Waves Combining Translation, Rotation and Strain in Weakly Anisotropic Media: Theory.
