Version: 2024-04-28

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
387	Writing, Speaking, and Communicating [Building Disciplinary Literacy in Materials Science Undergraduate Students. 2015 , 26.1778.1		
386	Stand-alone computers supporting learning dialogues in primary classrooms. 2003 , 39, 851-860		13
385	Methods for studying the processes of interaction and collaborative activity in computer-based educational activities. <i>Technology, Pedagogy and Education</i> , 2004 , 13, 195-212	2.3	53
384	Assessment for learning in English and mathematics: a comparison. 2005 , 16, 153-176		31
383	Socio-scientific issues and the quality of exploratory talk[what can be learned from schools involved in a [collapsed day[project?. 2005 , 16, 439-453		32
382	Mapping Children[Discussions of Evidence in Science to Assess Collaboration and Argumentation. <i>International Journal of Science Education</i> , 2006 , 28, 1817-1841	2.2	78
381	Learning How to Learn and Assessment for Learning: a theoretical inquiry. 2006 , 21, 119-132		120
380	Student engagement and student self-assessment: the REAL framework. 2006 , 13, 193-213		42
379	Teaching Children How to Use Language to Solve Maths Problems. <i>Language and Education</i> , 2006 , 20, 507-528	1.7	138
378	Promoting group talk and higher-order thinking in pupils by [coaching[secondary English trainee teachers. 2006 , 40, 106-114		12
377	The impact of interactive whiteboards on teacher[pupil interaction in the National Literacy and Numeracy Strategies. <i>British Educational Research Journal</i> , 2006 , 32, 443-457	1.6	102
376	Designing [Educationally Effective[Discussion. <i>Language and Education</i> , 2007 , 21, 342-359	1.7	11
375	Girls' and Boys' Use of Acknowledging Moves in Pupil Group Classroom Discussions. <i>Language and Education</i> , 2007 , 21, 304-327	1.7	2
374	Peer Tutoring in Schools: Cognitive Models and Organizational Typography. 2007 , 6, 356-372		11
373	Interactive Whole Class Teaching and Pupil Learning: Theoretical and Practical Implications. <i>Language and Education</i> , 2007 , 21, 271-283	1.7	11
372	Problematizing science subject matter knowledge as a legitimate enterprise in primary teacher education. 2007 , 37, 519-542		7
371	Supporting Teachers on Science-focused School Trips: Towards an integrated framework of theory and practice. <i>International Journal of Science Education</i> , 2007 , 29, 685-710	2.2	107

370	Commentary on the Reconciliation of Cognitive and Sociocultural Accounts of Conceptual Change. 2007 , 42, 75-78		15
369	The validity of collaborative assessment for learning. 2007 , 14, 185-199		34
368	Children's roles and use of evidence in science: an analysis of decision-making in small groups. <i>British Educational Research Journal</i> , 2007 , 33, 371-401	1.6	25
367	Impact of philosophical enquiry on school students' interactive behaviour. <i>Thinking Skills and Creativity</i> , 2007 , 2, 73-84	3	21
366	Discussion, debate and dialog: changing minds about conceptual change research in science education. 2008 , 3, 397-416		5
365	Changing our minds: a commentary on 'Conceptual change: a discussion of theoretical, methodological and practical challenges for science education' 2008 , 3, 351-362		26
364	Arguing to learn and learning to argue: Case studies of how students' argumentation relates to their scientific knowledge. 2008 , 45, 101-131		251
363	Towards effective partnerships in a collaborative problem-solving task. 2008 , 78, 581-96		12
362	Intervention for children with language impairments: a model of evidence-based outcome research. 2008 , 8, 2-12		2
361	WHAT IS THE PURPOSE OF LEARNING SCIENCE? AN ANALYSIS OF POLICY AND PRACTICE IN THE PRIMARY SCHOOL. 2008 , 56, 4-19		1
360	Dialogic or dialectic? The significance of ontological assumptions in research on educational dialogue. <i>British Educational Research Journal</i> , 2008 , 34, 347-361	1.6	122
359	The epistemological role of language use in learning: A phenomenographic intentional-expressive approach. 2008 , 3, 14-29		29
358	The effects of teacher discourse on students' discourse, problem-solving and reasoning during cooperative learning. 2008 , 47, 323-340		45
357	The Seeds of Time: Why Classroom Dialogue Needs a Temporal Analysis. 2008 , 17, 33-59		249
356	Young children's perspectives on whole class discussions. <i>Education 3-13</i> , 2008 , 36, 207-221	0.5	3
