

CITATION REPORT

List of articles citing

Effect of water-saving irrigation on rice yield and water use in typical lowland conditions in Asia

DOI: 10.1016/j.agwat.2003.09.002

Agricultural Water Management, 2004, 65, 193-210.

Version: 2024-04-25

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.
