

Is gastric electrical stimulation superior to standard pharmacotherapy for the treatment of functional GI symptoms, healthcare resources, and long-term health-related quality of life?

Neurogastroenterology and Motility

17, 35-43

DOI: [10.1111/j.1365-2982.2004.00609.x](https://doi.org/10.1111/j.1365-2982.2004.00609.x)
