Version: 2024-04-27

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
843	Changes in dietary pattern in 15 year old adolescents following a 4 month dietary intervention with school breakfast--a pilot study. 2006 , 5, 33		46
842	Understanding and addressing the epidemic of obesity: an energy balance perspective. 2006 , 27, 750-61		409
841	Multiple Intelligences, the Mozart Effect, and Emotional Intelligence: A Critical Review. 2006 , 41, 207-225		129
840	A Nutritionist's View. 2006 , 10, 26-28		
839	Nutrition and physical activity behaviours among Māori, Pacific and NZ European children: identifying opportunities for population-based interventions. 2006 , 30, 50-6		12
838	Position of the American Dietetic Association: local support for nutrition integrity in schools. <i>Journal of the American Dietetic Association</i> , 2006 , 106, 122-33		46
837	Le petit-djeuner chez l'enfant : des recommandations au terrain. 2006 , 19, 358-360		
836	Irregular breakfast eating and health status among adolescents in Taiwan. <i>BMC Public Health</i> , 2006 , 6, 295	4.1	36
835	The role of schools in obesity prevention. 2006 , 16, 109-42		293
834	Total fat, fat distribution and blood pressure according to eating frequency in children living in southern Italy: the ARCA project. 2006 , 30, 1166-9		29
833	Breakfast and the diets of Australian children and adolescents: an analysis of data from the 1995 National Nutrition Survey. 2007 , 58, 201-16		60
832	Energy intake at breakfast and weight change: prospective study of 6,764 middle-aged men and women. 2008 , 167, 188-92		73
831	Dietary habits of school children: representative survey in metropolitan elementary schools. Part two. 2007 , 51, 454-60		17
830	Impact of time trends and increasing age on health behaviour of Swedish school children. 2007 , 14, 326-32		4
829	Nutrition for the School Aged Child Athlete. 203-217		
828	Associations between deprivation, attitudes towards eating breakfast and breakfast eating behaviours in 9-11-year-olds. <i>Public Health Nutrition</i> , 2007 , 10, 582-9	3.3	50
827	Breakfast habits affect overall nutrient profiles in adolescents. <i>Public Health Nutrition</i> , 2007 , 10, 413-21	3.3	99

826	The time of day and the proportions of macronutrients eaten are related to total daily food intake. 2007 , 98, 1077-83		67
825	Consumption of a mid-morning snack improves memory but not attention in school children. 2007 , 90, 142-50		22
824	A low glycaemic index breakfast cereal preferentially prevents children's cognitive performance from declining throughout the morning. 2007 , 49, 240-4		120
823	Greater resting energy expenditure and lower respiratory quotient after 1 week of supplementation with milk relative to supplementation with a sugar-only beverage in children. 2007 , 56, 1699-707		13
822	Obesity Prevention During Preadolescence and Adolescence. 2007 , 459-488		
821	What effect do attempts to lose weight have on the observed relationship between nutrition behaviors and body mass index among adolescents?. <i>International Journal of Behavioral Nutrition and Physical Activity</i> , 2007 , 4, 40	8.4	14
820	Immigrant families' perceptions on walking to school and school breakfast: a focus group study. <i>International Journal of Behavioral Nutrition and Physical Activity</i> , 2007 , 4, 64	8.4	27
819	Validation of a self-completion measure of breakfast foods, snacks and fruits and vegetables consumed by 9- to 11-year-old schoolchildren. 2007 , 61, 420-30		37
818	Use of the youth risk behavior survey to monitor trends for nutrition and physical activity in a Midwest city school district. 2007 , 77, 351-8		7
817	Are dietary intakes and eating behaviors related to childhood obesity? A comprehensive review of the evidence. 2007 , 35, 35-60		131
816	Free breakfasts in schools: design and conduct of a cluster randomised controlled trial of the Primary School Free Breakfast Initiative in Wales [ISRCTN18336527]. <i>BMC Public Health</i> , 2007 , 7, 258	4.1	28
815	Breakfast: a missed opportunity. <i>Journal of the American Dietetic Association</i> , 2007 , 107, 565-9		77
814	Carbohydrate quantity and quality in relation to body mass index. <i>Journal of the American Dietetic Association</i> , 2007 , 107, 1768-80		109
813	Fourth-grade children are less accurate in reporting school breakfast than school lunch during 24-hour dietary recalls. 2007 , 39, 126-33		21
812	Obese and female adolescents skip breakfast more than their non-obese and male peers. 2007 , 2, 481-487		6
811	Reduced cardiorespiratory fitness, low physical activity and an urban environment are independently associated with increased cardiovascular risk in children. 2008 , 51, 1408-15		38
810	Visual communication to children in the supermarket context: Health protective or exploitive?. 2008 , 25, 333-348		31
809	Biscuits, sausage, gravy, milk, and orange juice: school breakfast environment in 4 rural Appalachian schools. 2008 , 78, 197-202		3

808	Diet quality and academic performance. 2008 , 78, 209-15; quiz 239-41	206
807	The relationship between meal frequency and body mass index in black and white adolescent girls: more is less. 2008 , 32, 23-9	63
806	Model of the home food environment pertaining to childhood obesity. 2008 , 66, 123-40	210
805	Life style related to blood pressure and body weight in adolescence: cross sectional data from the Young-HUNT study, Norway. <i>BMC Public Health</i> , 2008 , 8, 111	4.1 29
804	Examining the nutritional quality of breakfast cereals marketed to children. <i>Journal of the American Dietetic Association</i> , 2008 , 108, 702-5	90
803	Position of the American Dietetic Association: nutrition guidance for healthy children ages 2 to 11 years. <i>Journal of the American Dietetic Association</i> , 2008 , 108, 1038-44, 1046-7	115
802	Insight into the origins of intrusions (reports of uneaten food items) in children's dietary recalls, based on data from a validation study of reporting accuracy over multiple recalls and school foodservice production records. <i>Journal of the American Dietetic Association</i> , 2008 , 108, 1305-14	6
801	Breakfast skipping and body mass index among adolescents in Greece: whether an association exists depends on how breakfast skipping is defined. <i>Journal of the American Dietetic Association</i> , 2008 , 108, 1517-25	44
800	Concern over ready-to-eat breakfast cereals. <i>Journal of the American Dietetic Association</i> , 2008 , 108, 1618-9; author reply 1619-20	6
799	Authors' Response. <i>Journal of the American Dietetic Association</i> , 2008 , 108, 1619-1620	
798	Concern over ready-to-eat breakfast cereals. <i>Journal of the American Dietetic Association</i> , 2008 , 108, 1617-8; author reply 1619-20	4
797	Relationships between dietary habits and the prevalence of fatigue in medical students. 2008 , 24, 985-9	58
