

CITATION REPORT

List of articles citing

One-year follow-up of the effects of sildenafil on pulmonary arterial hypertension and veno-occlusive disease

DOI: 10.1590/s0100-879x2005000200006

Brazilian Journal of Medical and Biological Research,
2005, 38, 185-95.

Version: 2024-04-27

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.
