

CITATION REPORT

List of articles citing

Encoding and retrieval in the CA3 region of the hippocampus: a model of theta-phase separation

DOI: 10.1152/jn.00731.2004

Journal of Neurophysiology, 2005, 94, 70-82.

Source: <https://exaly.com/paper-pdf/38734036/citation-report.pdf>

Version: 2024-04-28

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
107	Slow and Fast inhibition and an H-current interact to create a theta rhythm in a model of CA1 interneuron network. <i>Journal of Neurophysiology</i> , 2005 , 94, 1509-18	3.2	129
106	Place cells, spatial maps and the population code for memory. 2005 , 15, 738-46		131
105	What is the function of hippocampal theta rhythm?--Linking behavioral data to phasic properties of field potential and unit recording data. 2005 , 15, 936-49		326
104	Retrieval attempts transiently interfere with concurrent encoding of episodic memories but not vice versa. 2005 , 25, 8122-30		8
103	Genetic dissection of theta rhythm heterogeneity in mice. 2005 , 102, 18165-70		62
102	Progressive transformation of hippocampal neuronal representations in "morphed" environments. 2005 , 48, 345-58		237
101	Muscarinic receptor activation tunes mouse stratum oriens interneurons to amplify spike reliability. 2006 , 571, 555-62		62
100	The role of acetylcholine in learning and memory. 2006 , 16, 710-5		975
