**Version:** 2024-04-17

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
45	Limiting youth access to tobacco: comparing the long-term health impacts of increasing cigarette excise taxes and raising the legal smoking age to 21 in the United States. <i>Health Policy</i> , <b>2007</b> , 80, 378-91	3.2	55
44	Raising taxes to reduce smoking prevalence in the US: a simulation of the anticipated health and economic impacts. <i>Public Health</i> , <b>2008</b> , 122, 3-10	4	55
43	Changes in smoking prevalence in 16-17-year-old versus older adults following a rise in legal age of sale: findings from an English population study. <i>Addiction</i> , <b>2010</b> , 105, 1984-8	4.6	25
42	Profiling Literature in Healthcare Simulation. <i>Simulation</i> , <b>2010</b> , 86, 543-558	1.2	66
41	Research opportunities concerning youth and the Family Smoking Prevention and Tobacco Control Act. <i>Nicotine and Tobacco Research</i> , <b>2012</b> , 14, 54-61	4.9	6
40	Application of computer simulation modeling in the health care sector: a survey. <i>Simulation</i> , <b>2012</b> , 88, 197-216	1.2	76
39	Increasing the Smoking age—the right thing to do. <i>Annals of Internal Medicine</i> , <b>2013</b> , 159, 558-9	8	8
38	Strategies to reduce youth tobacco use: opportunities for local government. <i>American Journal of Preventive Medicine</i> , <b>2014</b> , 47, S93-4	6.1	2
37	Understanding social forces involved in diabetes outcomes: a systems science approach to quality-of-life research. <i>Quality of Life Research</i> , <b>2014</b> , 23, 959-69	3.7	21
36	Retail impact of raising tobacco sales age to 21 years. <i>American Journal of Public Health</i> , <b>2014</b> , 104, e18-21	5.1	17
35	The Economic Impact of Smoking and of Reducing Smoking Prevalence: Review of Evidence. <i>Tobacco Use Insights</i> , <b>2015</b> , 8, 1-35	1.5	150
34	Simulating patterns of patient engagement, treatment adherence, and viral suppression: a system dynamics approach to evaluating HIV care management. <i>AIDS Patient Care and STDs</i> , <b>2015</b> , 29 Suppl 1, S55-63	5.8	9
33	Medical costs and quality-adjusted life years associated with smoking: a systematic review. <i>BMC Public Health</i> , <b>2016</b> , 16, 646	4.1	13
32	Translating research into prevention of high-risk behaviors in the presence of complex systems: definitions and systems frameworks. <i>Translational Behavioral Medicine</i> , <b>2016</b> , 6, 17-31	3.2	9
31	Operational Research for Emergency Planning in Healthcare: Volume 2. <b>2016</b> ,		1
30	Compliance with minimum price and legal age for cigarette purchase laws: evidence from NYC in advance of raising purchase age to 21. <i>Tobacco Control</i> , <b>2016</b> , 25, 289-94	5.3	10
29	Public support for raising the age of sale for tobacco to 21 in the United States. <i>Tobacco Control</i> , <b>2016</b> , 25, 284-8	5.3	42

28	Applications of Simulation within the Healthcare Context. <b>2016</b> , 252-295		2
27	Mathematical Modeling in Tobacco Control Research: Initial Results From a Systematic Review. <i>Nicotine and Tobacco Research</i> , <b>2016</b> , 18, 229-42	4.9	16
26	Model-based economic evaluations in smoking cessation and their transferability to new contexts: a systematic review. <i>Addiction</i> , <b>2017</b> , 112, 946-967	4.6	22
25	Computational Models Used to Assess US Tobacco Control Policies. <i>Nicotine and Tobacco Research</i> , <b>2017</b> , 19, 1257-1267	4.9	12
24	Impact of laws restricting the sale of tobacco to minors on adolescent smoking and perceived obtainability of cigarettes: an intervention-control pre-post study of 19 European Union countries. <i>Addiction</i> , <b>2017</b> , 112, 320-329	4.6	46
23	Cost-effectiveness of tobacco control policies and programmes targeting adolescents: a systematic review. <i>European Journal of Public Health</i> , <b>2018</b> , 28, 39-43	2.1	9
