

CITATION REPORT

List of articles citing

The Potential for Demand-Responsive Lighting in Non-daylit Offices

DOI: 10.1582/leukos.2006.03.02.002

LEUKOS - Journal of Illuminating Engineering Society of North America, 2006, 3, 105-120.

Version: 2024-04-09

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
10	Energy Saving Lighting Control Systems for Open-Plan Offices: A Field Study. <i>LEUKOS - Journal of Illuminating Engineering Society of North America</i> , 2007 , 4, 7-29	3.5	96
9	Individual control of electric lighting in a daylight space. <i>Lighting Research and Technology</i> , 2008 , 40, 25-41	2	61
8	Detection and Acceptance of Demand-Responsive Lighting in Offices with and without Daylight. <i>LEUKOS - Journal of Illuminating Engineering Society of North America</i> , 2008 , 4, 139-156	3.5	13
7	Control strategies for lighting and ventilation in offices: effects on energy and occupants. <i>Intelligent Buildings International</i> , 2009 , 1, 101-121	1.7	14
6	Demand-responsive Lighting - A Field Study. <i>LEUKOS - Journal of Illuminating Engineering Society of North America</i> , 2010 , 6, 203-226	3.5	8
5	Sustainability in intelligent building environments using weighted priority scheduling algorithm. <i>Journal of Ambient Intelligence and Smart Environments</i> , 2017 , 9, 689-705	2.2	4
4	Dimming strategies for open office lighting: User experience and acceptance. <i>Lighting Research and Technology</i> , 2019 , 51, 513-529	2	10
3	Smart versus conventional lighting in apartments - Electric lighting energy consumption simulation for three different households. <i>Energy and Buildings</i> , 2021 , 244, 111009	7	6
2	References. 2014 , 611-666		
1	Improving lighting energy efficiency through user response. <i>Energy and Buildings</i> , 2022 , 263, 112022	7	3
