

CITATION REPORT

List of articles citing

Obesity increases the risk for persisting obstructive sleep apnea after treatment in children

DOI: 10.1016/j.ijporl.2006.04.003
International Journal of Pediatric
Otorhinolaryngology, 2006, 70, 1555-60.

Version: 2024-04-28

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.
