

CITATION REPORT

List of articles citing

Plasma concentrations of plant sterols: physiology and relationship with coronary heart disease

DOI: 10.1111/j.1753-4887.2006.tb00224.x
Nutrition Reviews, 2006, 64, 385-402.

Version: 2024-04-26

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
111	Fish-oil esters of plant sterols differ from vegetable-oil sterol esters in triglycerides lowering, carotenoid bioavailability and impact on plasminogen activator inhibitor-1 (PAI-1) concentrations in hypercholesterolemic subjects. 2007 , 6, 28		45
110	Ingestion of phytosterols is not potentially hazardous. 2007 , 137, 2485; author reply 2486		10
109	Customary use of plant sterol and plant stanol enriched margarine is associated with changes in serum plant sterol and stanol concentrations in humans. 2007 , 137, 1301-6		59
108	Reply to Dr. Jones. 2007 , 137, 2486-2486		
107	Phytostérols et risque cardiovasculaire. 2007 , 21, 17-27		5
106	Cholesterol-lowering effect of plant sterols. 2008 , 10, 467-72		39
105	Significant association of ABCG8:D19H gene polymorphism with hypercholesterolemia and insulin resistance. 2008 , 53, 757-763		27
104	Modulation of cytokine production by plant sterols in stimulated human Jurkat T cells. 2008 , 52, 664-73		33
103	Preferential campesterol incorporation into various tissues in apolipoprotein E*3-Leiden mice consuming plant sterols or stanols. 2008 , 57, 1241-7		11
102	Cholesterol-lowering efficacy of plant sterols in low-fat yogurt consumed as a snack or with a meal. 2008 , 27, 588-95		50
101	Biological effects of oxidized phytosterols: a review of the current knowledge. 2008 , 47, 37-49		124
100	Ezetimibe: cholesterol lowering and beyond. 2008 , 6, 447-70		107
99	Sitosterolaemia: pathophysiology, clinical presentation and laboratory diagnosis. 2008 , 61, 588-94		80
98	Phytosterols in cardiovascular disease: innocuous dietary components, or accelerators of atherosclerosis?. 2008 , 3, 301-310		11
97	Systematic haplotype analysis resolves a complex plasma plant sterol locus on the Micronesian Island of Kosrae. 2009 , 106, 13886-91		20
96	Adverse effects of statins - mechanisms and consequences. 2009 , 4, 209-28		141
95	Serum sterol responses to increasing plant sterol intake from natural foods in the Mediterranean diet. 2009 , 48, 373-82		57

94	Plant stanol esters lower serum triacylglycerol concentrations via a reduced hepatic VLDL-1 production. 2009 , 44, 1149-53	41
93	The effects of statins and sitosterols: benefit or not?. 2009 , 11, 23-7	17
92	Increased plasma levels of plant sterols and atherosclerosis: a controversial issue. 2009 , 11, 391-8	17
91	A moderate intake of phytosterols from habitual diet affects cholesterol metabolism. 2009 , 65, 397-404	8
90	Baseline plasma plant sterol concentrations do not predict changes in serum lipids, C-reactive protein (CRP) and plasma plant sterols following intake of a plant sterol-enriched food. 2009 , 63, 543-51	28
89	Lack of genoprotective effect of phytosterols and conjugated linoleic acids on Caco-2 cells. 2009 , 47, 1791-6	9
88	Comparison of the immunomodulatory effects of the plant sterol beta-sitosterol to simvastatin in peripheral blood cells from multiple sclerosis patients. 2009 , 9, 153-7	43
87	Comparison of the effects of maximal dose atorvastatin and rosuvastatin therapy on cholesterol synthesis and absorption markers. 2009 , 50, 730-9	79
86	New insights into the molecular actions of plant sterols and stanols in cholesterol metabolism. 2009 , 203, 18-31	201
85	Fitoesteroles plasmáticos: marcadores de una dieta saludable y un riesgo cardiometabólico menor en la población española del estudio EPIC. 2009 , 21, 106-114	
84	Effect of phytosterols on copper lipid peroxidation of human low-density lipoproteins. 2010 , 26, 296-304	24
83	Tangible Health Benefits of Phytosterol Functional Foods. 2010 , 362-387	4
82	Beta-sitosterol exhibits anti-inflammatory activity in human aortic endothelial cells. 2010 , 54, 551-8	150
81	. 2010 ,	17
80	Familial combined hyperlipidemia is associated with alterations in the cholesterol synthesis pathway. 2010 , 30, 113-20	35
79	Phytosterol plasma concentrations and coronary heart disease in the prospective Spanish EPIC cohort. 2010 , 51, 618-24	67
