

CITATION REPORT

List of articles citing

Genetic structure at range edge: low diversity and high inbreeding in Southeast Asian mangrove (*Avicennia marina*) populations

DOI: 10.1111/j.1365-294x.2006.02997.x
Molecular Ecology, 2006, 15, 3515-25.

Source: <https://exaly.com/paper-pdf/40420367/citation-report.pdf>

Version: 2024-04-28

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.
