

# CITATION REPORT

List of articles citing

Perioperative complications and adverse events of the MONARC transobturator tape, compared with the tension-free vaginal tape

DOI: 10.1016/j.ajog.2006.07.007

American Journal of Obstetrics and Gynecology, 2006, 195, 1820-5.

**Source:** <https://exaly.com/paper-pdf/40609964/citation-report.pdf>

**Version:** 2024-04-28

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.
