

CITATION REPORT

List of articles citing

A concept for the standardized detection of disseminated tumor cells in bone marrow from patients with primary breast cancer and its clinical implement

DOI: 10.1002/cncr.22076
Cancer, 2006, 107, 885-92.

Version: 2024-04-28

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.
