

# CITATION REPORT

List of articles citing

Evidence for adaptive selection acting on the tRNA and rRNA genes of human mitochondrial DNA

DOI: 10.1002/humu.20378

Human Mutation, 2006, 27, 1072-81.

**Source:** <https://exaly.com/paper-pdf/40860895/citation-report.pdf>

**Version:** 2024-04-28

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.
