Version: 2024-04-23

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.
The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
212	Abnormal temporal difference reward-learning signals in major depression. *Brain*, **2008**, 131, 2084-93	11.2	282
211	Enhanced negative feedback responses in remitted depression. **2008**, 19, 1045-8		75
210	Worth the 'EEfRT'? The effort expenditure for rewards task as an objective measure of motivation and anhedonia. **2009**, 4, e6598		378
209	The relationship between aberrant neuronal activation in the pregenual anterior cingulate, altered glutamatergic metabolism, and anhedonia in major depression. **2009**, 66, 478-86		242
208	Reduced caudate and nucleus accumbens response to rewards in unmedicated individuals with major depressive disorder. **2009**, 166, 702-10		804
207	Neuropsychology of affective disorders. **2009**, 8, 91-96		7
206	Abnormal response to failure in unmedicated major depression. *Journal of Affective Disorders*, **2009** , 119, 92-9	6.6	18
205	Increased self-focus in major depressive disorder is related to neural abnormalities in subcortical-cortical midline structures. **2009**, 30, 2617-27		203
204	Neural representation of reward in recovered depressed patients. **2009**, 205, 667-77		197
203	Impaired error awareness and anterior cingulate cortex hypoactivity in chronic cannabis users. *Neuropsychopharmacology*, **2009**, 34, 2450-8	8.7	238
202	The effects of psychotherapy on neural responses to rewards in major depression. **2009**, 66, 886-97		202
201	Neurocognitive mechanisms in depression: implications for treatment. **2009**, 32, 57-74		301
200	Brain imaging correlates of cognitive impairment in depression. **2009**, 3, 30		33
199	Regret and the negative evaluation of decision outcomes in major depression. **2010**, 10, 406-13		27
198	Decreased response inhibition in middle-aged male patients with type 2 diabetes. **2010**, 4, 1		43
197	Neural processing of reward and loss in girls at risk for major depression. **2010**, 67, 380-7		243
196	Approach and avoidance learning in patients with major depression and healthy controls: relation to anhedonia. *Psychological Medicine*, **2010**, 40, 433-40	6.9	97

195	Reward and punishment processing in depression. **2010**, 68, 118-24		371
194	Neural correlates of reward processing in schizophrenia--relationship to apathy and depression. **2010**, 118, 154-61		167
193	Neural reward processing is modulated by approach- and avoidance-related personality traits. **2010** , 49, 1868-74		125
192	Genes, Memes, Culture, and Mental Illness. **2010**,		15
191	Syndrome de Diog□e : hypofrontalit□fonctionnelle ou organique ?. **2011**, 11, 1-3		1
190	Two-week administration of the combined serotonin-noradrenaline reuptake inhibitor duloxetine augments functioning of mesolimbic incentive processing circuits. **2011**, 70, 568-74		46
189	The developmental psychopathology of motivation in adolescence. **2011**, 1, 414-29		31
188	Expected value and prediction error abnormalities in depression and schizophrenia. *Brain*, **2011**, 134, 1751-64	11.2	315
187	Deficits in sustaining reward responses in subsyndromal and syndromal major depression. **2011**, 35, 1045-52		56
186	Affective bias in internal attention shifting among depressed youth. **2011**, 187, 125-9		20
185	Abnormal sensitivity to negative feedback in late-life depression. **2011**, 65, 333-40		5
184	Electrophysiological evidence for abnormal error monitoring in recurrent major depressive disorder. **2011**, 48, 1192-202		34
183	Reconsidering anhedonia in depression: lessons from translational neuroscience. **2011**, 35, 537-55		887
182	Efficacy markers in depression. **2011**, 25, 1148-58		93
181	Drug-free patients with major depression show an increased electrophysiological response to valid and invalid feedback. *Psychological Medicine*, **2011**, 41, 2515-25	6.9	22
180	Neurobiological markers of familial risk for depression. *Current Topics in Behavioral Neurosciences*, **2013**, 14, 181-206	3.4	13
179	Hyporeactivity of ventral striatum towards incentive stimuli in unmedicated depressed patients normalizes after treatment with escitalopram. **2012**, 26, 677-88		189
178	Multi-centre diagnostic classification of individual structural neuroimaging scans from patients with major depressive disorder. *Brain*, **2012**, 135, 1508-21	11.2	134

177	Cognitive mechanisms of treatment in depression. *Neuropsychopharmacology*, **2012**, 37, 117-36	8.7	319
