

Evidence for heat losses via party wall cavities in masonry

Building Services Engineering Research and Technology
28, 161-181

DOI: [10.1177/0143624407077196](https://doi.org/10.1177/0143624407077196)

Citation Report

#	ARTICLE	IF	CITATIONS
1	Addressing the challenges of climate change for the built environment. Building Research and Information, 2007, 35, 343-350.	3.9	30
2	What is the relationship between built form and energy use in dwellings?. Energy Policy, 2008, 36, 4544-4547.	8.8	66
3	Regulatory standards and barriers to improved performance for housing. Energy Policy, 2008, 36, 4475-4481.	8.8	58
4	How to support growth with less energy. Energy Policy, 2008, 36, 4592-4599.	8.8	30
5	Modelling building stock geometry for energy, emission and mass calculations. Building Research and Information, 2008, 36, 557-567.	3.9	6
6	A review of bottom-up building stock models for energy consumption in the residential sector. Building and Environment, 2010, 45, 1683-1697.	6.9	679
