

CITATION REPORT

List of articles citing

The influence of soil heavy metals pollution on soil microbial biomass, enzyme activity, and community composition near a copper smelter

DOI: 10.1016/j.ecoenv.2006.03.007

Ecotoxicology and Environmental Safety, 2007, 67, 75-81.

Version: 2024-04-28

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.
