

CITATION REPORT

List of articles citing

The risk of adverse outcomes in extra-articular distal radius fractures is increased with malalignment in patients of all ages but mitigated in older patients

DOI: 10.1016/j.jhssa.2007.05.009

Journal of Hand Surgery, 2007, 32, 962-70.

Version: 2024-04-28

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.
