

CITATION REPORT

List of articles citing

Is it the blood pressure or the blood vessel?

DOI: 10.1016/j.jash.2006.11.001

Journal of the American Society of Hypertension, 2007,
1, 5-16.

Version: 2024-04-20

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
16	Devising new drugs for the treatment of hypertension--"novel drugs targeting hypertension: renin inhibitors and beyond". <i>Journal of Cardiovascular Pharmacology</i> , 2007 , 50, 1-2	3.1	
15	Reducing cardiovascular risk by blockade of the renin-angiotensin-aldosterone system. <i>Advances in Therapy</i> , 2007 , 24, 1290-304	4.1	17
14	Does it matter how you lower blood pressure in patients with uncomplicated hypertension? Weighing the evidence. <i>Current Atherosclerosis Reports</i> , 2007 , 9, 352-8	6	1
13	Functional capillary rarefaction in mild blood pressure elevation. <i>Clinical and Translational Science</i> , 2008 , 1, 75-9	4.9	25
12	Capillary rarefaction in treated and untreated hypertensive subjects. <i>Therapeutic Advances in Cardiovascular Disease</i> , 2008 , 2, 79-88	3.4	14
11	Coadministered amlodipine and atorvastatin produces early improvements in arterial wall compliance in hypertensive patients with dyslipidemia. <i>American Journal of Hypertension</i> , 2009 , 22, 137-44	2.3	33
10	Alterations in capillary morphology are found in mild blood pressure elevation. <i>Journal of Hypertension</i> , 2010 , 28, 2258-66	1.9	8
9	Comments on Point:Counterpoint: The dominant contributor to systemic hypertension: Chronic activation of the sympathetic nervous system vs. Activation of the intrarenal renin-angiotensin system. Activated intrarenal renin-angiotensin system is correlated with high blood pressure in humans. <i>Journal of Applied Physiology</i> , 2010 , 109, 2003	3.7	1
8	Heart failure is preventable. <i>Current Heart Failure Reports</i> , 2010 , 7, 91-2	2.8	
7	Association of capillary density and function measures with blood pressure, fasting plasma glucose, and insulin sensitivity. <i>Journal of Clinical Hypertension</i> , 2010 , 12, 125-35	2.3	9
6	Should the blood pressure or the blood vessel be the target of therapy?. <i>Expert Review of Cardiovascular Therapy</i> , 2011 , 9, 1397-401	2.5	2
5	Blood pressure tracking over the adult life course: patterns and correlates in the Framingham heart study. <i>Hypertension</i> , 2012 , 60, 1393-9	8.5	89
4	Comparative effectiveness of a fixed-dose combination of losartan + HCTZ versus bisoprolol + HCTZ in patients with moderate-to-severe hypertension: results of the 6-month ELIZA trial. <i>Vascular Health and Risk Management</i> , 2013 , 9, 535-49	4.4	11
3	Enhanced vasorelaxation effect of endogenous anandamide on thoracic aorta in renal vascular hypertension rats. <i>Clinical and Experimental Pharmacology and Physiology</i> , 2015 , 42, 950-955	3	10
2	Office Blood Pressure and Cardiovascular Disease: Pathophysiologic Implications for Diagnosis and Treatment. <i>Hypertension</i> , 2017 , 69, e14-e20	8.5	2
1	Cardiovascular Disease Progression: A Target for Therapy?. <i>American Journal of Medicine</i> , 2018 , 131, 1170-1174	2.1	1734
