

CITATION REPORT

List of articles citing

Angiotensin II cell signaling: physiological and pathological effects in the cardiovascular system

DOI: 10.1152/ajpcell.00287.2006

American Journal of Physiology - Cell Physiology, 2007
, 292, C82-97.

Version: 2024-04-11

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
1468	The human angiotensin II type 1 receptor +1166 A/C polymorphism attenuates microRNA-155 binding. 2007 , 282, 24262-9		217
1467	Vascular hypertrophy and hypertension caused by transgenic overexpression of profilin 1. 2007 , 282, 37632-9		37
1466	Vasoactive peptides in cardiovascular (patho)physiology. 2007 , 5, 531-52		32
1465	Regulation of swelling-activated Cl(-) current by angiotensin II signalling and NADPH oxidase in rabbit ventricle. 2008 , 77, 73-80		55
1464	Is angiotensin II a direct mediator of left ventricular hypertrophy? Time for another look. 2007 , 49, 1196-201		70
1463	Aldosterone suppresses insulin signaling via the downregulation of insulin receptor substrate-1 in vascular smooth muscle cells. 2007 , 50, 750-5		125
1462	Vascular smooth muscle G(q) signaling is involved in high blood pressure in both induced renal and genetic vascular smooth muscle-derived models of hypertension. <i>American Journal of Physiology - Heart and Circulatory Physiology</i> , 2007 , 293, H3072-9	5.2	25
1461	Angiotensin II induces capillary formation from endothelial cells via the LOX-1 dependent redox-sensitive pathway. 2007 , 50, 952-7		47
1460	Hypoxia-induced cardiac remodeling in sleep apnea syndrome: involvement of the renin-angiotensin-aldosterone system. 2007 , 30, 1147-9		4
1459	Upregulation of angiotensin II-AT1 receptors during statin withdrawal in vascular smooth muscle cells. 2007 , 50, 708-11		14
1458	The angiotensin II receptor 2 is expressed and mediates angiotensin II signaling in lung fibrosis. 2007 , 37, 640-50		70
1457	Des-aspartate-angiotensin I exerts hypoglycemic action via glucose transporter-4 translocation in type 2 diabetic KKAY mice and GK rats. 2007 , 148, 5925-32		18
1456	Job strain and risk of acute recurrent coronary heart disease events. 2007 , 298, 1652-60		124
1455	Angiotensin II-induced reactive oxygen species and the kidney. 2007 , 18, 2439-46		200
1454	Emerging concepts of regulation of angiotensin II receptors: new players and targets for traditional receptors. 2007 , 27, 2532-9		65
1453	Novel roles of intracrine angiotensin II and signalling mechanisms in kidney cells. 2007 , 8, 23-33		44
1452	Endothelin-1, but not Ang II, activates MAP kinases through c-Src independent Ras-Raf dependent pathways in vascular smooth muscle cells. 2007 , 27, 1960-7		41

1451	Activation of the non-receptor tyrosine kinase cSrc in macrophage-rich atherosclerotic plaques of human carotid arteries. 2007 , 40, 153-61		0
1450	p38 mitogen-activated protein kinase contributes to angiotensin II-stimulated migration of rat aortic smooth muscle cells. 2007 , 105, 74-81		30
1449	Angiotensin II signal transduction through the AT1 receptor: novel insights into mechanisms and pathophysiology. 2007 , 112, 417-28		319
1448	Telomere dysfunction in hypertension. <i>Journal of Hypertension</i> , 2007 , 25, 2185-92	1.9	46
1447	Angiotensin II stimulates protein kinase D-dependent histone deacetylase 5 phosphorylation and nuclear export leading to vascular smooth muscle cell hypertrophy. 2007 , 27, 2355-62		62
1446	Aortic valve stenosis: an active atheroinflammatory process. 2007 , 18, 483-91		84
1445	Electrophysiological and immunofluorescence characterization of Ca(2+) channels of acutely isolated rat sphenopalatine ganglion neurons. 2007 , 419, 207-12		4
1444	Local Angiotensin Generation and AT2 Receptor Activation. 2007 , 247-272		
1443	The intrarenal renin-angiotensin system: from physiology to the pathobiology of hypertension and kidney disease. 2007 , 59, 251-87		930
1442	Type 2 diabetes and cardiovascular disease: getting to the fat of the matter. 2007 , 85, 113-32		48
1441	Candesartan cilexetil--a review of effects on cardiovascular complications in hypertension and chronic heart failure. 2007 , 23, 1693-705		16
1440	Renin-angiotensin-aldosterone system and oxidative stress in cardiovascular insulin resistance. <i>American Journal of Physiology - Heart and Circulatory Physiology</i> , 2007 , 293, H2009-23	5.2	214
1439	Modeling hypertrophic IP3 transients in the cardiac myocyte. 2007 , 93, 3421-33		36
1438	Effects of combined candesartan and ACE inhibitors on BNP, markers of inflammation and oxidative stress, and glucose regulation in patients with symptomatic heart failure. 2007 , 13, 86-94		33
1437	Interaction of signal transduction between angiotensin AT1 and AT2 receptor subtypes in rat senescent heart. 2007 , 120, 1821-1824		1
1436	Mitogenic signaling pathways induced by G protein-coupled receptors. 2007 , 213, 589-602		383
1435	Renin: at the heart of the mast cell. 2007 , 217, 123-40		80
1434	Pharmacological evidence for altered src kinase regulation of I (Ca,L) in patients with chronic atrial fibrillation. 2007 , 375, 383-92		60

1433	The role of angiotensin AT1 receptor-associated protein in renin-angiotensin system regulation and function. 2007 , 9, 121-7	35
1432	Role of advanced glycation end products in hypertension and atherosclerosis: therapeutic implications. 2007 , 49, 48-63	49
