

Guidelines for cardiac pacing and cardiac resynchronization
Cardiac Pacing and Cardiac Resynchronization Therapy
Cardiology. Developed in Collaboration with the European

Europace

9, 959-998

DOI: [10.1093/europace/eum189](https://doi.org/10.1093/europace/eum189)

Citation Report

#	ARTICLE	IF	CITATIONS
3	When Is It Too Late for Cardiac Resynchronization Therapy?. PACE - Pacing and Clinical Electrophysiology, 2008, 31, 525-528.	0.5	12
4	Kearns-Sayre syndrome: electro-vectorcardiographic evolution for left septal fascicular block of the his bundle. Journal of Electrocardiology, 2008, 41, 675-678.	0.4	21
5	The Newcastle protocols 2008: an update on head-up tilt table testing and the management of vasovagal syncope and related disorders. Heart, 2008, 95, 416-420.	1.2	90
6	What is the level of evidence for combined cardiac resynchronization and defibrillation therapy in heart failure?. Europace, 2008, 10, 511-511.	0.7	0
7	Significance of QRS morphology in determining the prevalence of mechanical dyssynchrony in heart failure patients eligible for cardiac resynchronization: particular focus on patients with right bundle branch block with and without coexistent left-sided conduction defects. Europace, 2008, 10, 566-571.	0.7	36
8	Routine follow-up after pacemaker implantation: frequency, pacemaker programming and professionals in charge. Europace, 2008, 10, 832-837.	0.7	25
9	Benefit of cardiac resynchronization therapy in atrial fibrillation patients vs. patients in sinus rhythm: the role of atrioventricular junction ablation. Europace, 2008, 10, 809-815.	0.7	85
10	Tools and strategies for the reduction of inappropriate implantable cardioverter defibrillator shocks. Europace, 2008, 10, 1256-1265.	0.7	28
11	Optimized post-operative surveillance of permanent pacemakers by home monitoring: the OEDIPE trial. Europace, 2008, 10, 1392-1399.	0.7	77
12	Very long term follow-up of cardiac resynchronization therapy: Clinical outcome and predictors of mortality. European Journal of Heart Failure, 2008, 10, 796-801.	2.9	37
13	Pacing in elderly recurrent fallers with carotid sinus hypersensitivity: a randomised, double-blind, placebo controlled crossover trial. Heart, 2008, 95, 405-409.	1.2	98
14	Subacute cardiac perforations associated with active fixation leads. Europace, 2008, 11, 206-212.	0.7	80
15	The patient journey from symptom onset to pacemaker implantation. QJM - Monthly Journal of the Association of Physicians, 2008, 101, 955-960.	0.2	13
16	What is the level of evidence for combined cardiac resynchronization and defibrillation therapy in heart failure? reply. Europace, 2008, 10, 511-512.	0.7	0
17	Sinus Node Dysfunction. , 2009, , 118-126.		1
18	Cardiac Resynchronization Therapy in Dyssynchronous Heart Failure. Circulation, 2009, 119, 1192-1194.	1.6	10
19	Treatment of persistent sinus bradycardia with intermittent symptoms: are guidelines clear?. Europace, 2009, 11, 562-564.	0.7	11
20	Novel pacing algorithms: do they represent a beneficial proposition for patients, physicians, and the health care system?. Europace, 2009, 11, 1272-1280.	0.7	11
