

CITATION REPORT

List of articles citing

Radiofrequency ablation of frequent, idiopathic premature ventricular complexes: comparison with a control group without intervention

DOI: 10.1016/j.hrthm.2007.03.003
Heart Rhythm, 2007, 4, 863-7.

Version: 2024-04-28

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

9	Risk factors for the development of premature ventricular complex-induced cardiomyopathy: a systematic review and meta-analysis.		0

- 8 Eurasian association of cardiology (EAC) guidelines for the prevention and treatment of ventricular heart rhythm disorders and prevention of sudden cardiac death (2022). **2022**, 6-67
- 7 Three-day monitoring of adhesive single-lead electrocardiogram patch for premature ventricular complex: validation of diagnostic yield and evaluation of burden fluctuation (Preprint).
- 6 Premature Ventricular Contractions and Atrial Fibrillation: The Reunion of Distant Relatives?. **2023**, 12,
- 5 Idiopathische ventrikuläre Extrasystolie. **2022**, 153-165
- 4 Ventricular tachycardia ablation in children. **2023**,
- 3 Asymptomatische ventrikuläre Extrasystolen behandeln?.
- 2 Catheter Ablation vs Antiarrhythmic Drug Therapy for Treatment of Premature Ventricular Complexes. **2023**,
- 1 Insight of electrocardiographic and electrophysiological parameters on the left ventricular function in patients with ventricular arrhythmia from left ventricular summit.
