Version: 2024-04-28

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.
The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
1017	Discussion of Copulas: Tales and facts by Thomas Mikosch. **2006**, 9, 27-36		15
1016	Importance of Tail Dependence in Bivariate Frequency Analysis. *Journal of Hydrologic Engineering - ASCE*, **2007**, 12, 394-403	1.8	128
1015	A Primer on Copulas for Count Data. **2007**, 37, 475-515		187
1014	Metaelliptical copulas and their use in frequency analysis of multivariate hydrological data. **2007**, 43,		155
1013	Analysis of inter-gauge dependence by Kendall's K, upper tail dependence coefficient, and 2-copulas with application to rainfall fields. **2008**, 22, 671-688		67
1012	Representation of 3D heterogeneous cloud fields using copulas: Theory for water clouds. **2008**, 134, 1843-1864		19
1011	Fitting copulas to bivariate earthquake data: the seismic gap hypothesis revisited. **2008**, 19, 251-269		23
1010	Estimating the error distribution in multivariate heteroscedastic time-series models. **2008**, 138, 1442-1458		9
1009	Modelling dependence. **2008**, 42, 127-146		8
1008	A new rainfall model based on the Neyman-Scott process using cubic copulas. **2008**, 44,		44
1007	Assessing the Effectiveness of Agricultural BMPs Using the Copula Approach. **2008**,		1
1006	Absolutely Continuous Copulas with Given Diagonal Sections. **2008**, 37, 2924-2942		31
1005	Discussion of Everything You Always Wanted to Know about Copula Modeling but Were Afraid to Ask by C. Genest and A.-C. Favre. *Journal of Hydrologic Engineering - ASCE*, **2008**, 13, 995-996	1.8	
1004	Modlisation de la structure de dpendance hauteur dure d'vnements pluvieux par la copule de Gumbel. **2008**, 53, 802-817		16
1003	Selection of Copula to Generate Input Joint CDF for RBDO. **2008**,		5
1002	The research of copula theoryin financial risk management. **2008**,		
1001	Multivariate non-normally distributed random variables in climate research Introduction to the copula approach. **2008**, 15, 761-772		199

1000	Operational Risk Quantification Using Extreme Value Theory and Copulas: From Theory to Practice. **2008**,	8
999	Planning of technical flood retention measures in large river basins under consideration of imprecise probabilities of multivariate hydrological loads. **2009**, 9, 1349-1363	17
998	Comparison Study Between Probabilistic and Possibilistic Approach for Problems With Correlated Input and Lack of Input Statistical Information. **2009**,	1
997	Bivariate flood frequency analysis. Part 2: a copula-based approach with mixed marginal distributions. **2009**, 2, 32-44	106
996	On the construction of multivariate extreme value models via copulas. **2009**, 21, n/a-n/a	31
995	Copula-based mixed models for bivariate rainfall data: an empirical study in regression perspective. **2009**, 23, 677-693	43
994	Complementarity of hydro and wind power: Improving the risk profile of energy inflows. **2009**, 37, 5376-5384	65
993	Construction of non-exchangeable bivariate distribution functions. **2009**, 50, 383-391	43
992	Confidence intervals for the correlation between the gamma-ray burst peak energy and the associated supernova peak brightness. **2009**, 393, 1370-1376	10
991	Copulas: A Personal View. **2009**, 76, 639-650	111
990	Multivariate extremes of generalized skew-normal distributions. **2009**, 79, 525-533	12
989	Tails of multivariate Archimedean copulas. **2009**, 100, 1521-1537	90
988	Estimating correlation from dichotomized normal variables. **2009**, 139, 3785-3794	4
987	New constructions of diagonal patchwork copulas. **2009**, 179, 3383-3391	21
986	Goodness-of-fit tests for copulas: A review and a power study. **2009**, 44, 199-213	726
985	Linkages between Shanghai and Hong Kong stock indices. **2009**, 19, 1847-1857	13
984	A copula-based approach to accommodate residential self-selection effects in travel behavior modeling. **2009**, 43, 749-765	180
983	Probabilistic characterization of drought properties through copulas. **2009**, 34, 596-605	158

982	Investigation with Kendall plots of infiltration index-maximum rainfall intensity relationship for regionalization. **2009**, 34, 642-653	7
981	Bivariate Copulas. **2009**, 33-65	1
980	The Advent of Copulas in Finance. **2009**, 15, 609-618	98
979	A joint model of complex wavelet coefficients for texture retrieval. **2009**,	16
978	A flexible model for actuarial risks under dependence. **2009**, 2009, 152-167	
977	A multisite daily rainfall generator driven by bivariate copula-based mixed distributions. **2009**, 114,	70
976	BIVARIATE ANALYSIS AND JOINT EXCEEDANCE PROBABILITIES OF EXTREME WAVE HEIGHTS AND PERIODS. **2009**,	
975	Bivariate Models Constructed by the Marginal Transformation Method: With Applications in Hydrology. **2010**,	
974	FROM FINANCE TO COSMOLOGY: THE COPULA OF LARGE-SCALE STRUCTURE. **2010**, 708, L9-L13	31
973	Generalized Diagonal Band Copulas with Two-Sided Generating Densities. **2010**, 7, 196-214	10
972	Dependence patterns associated with the fundamental diagram: a copula function approach. **2010**, 11, 18-24	
971	Copula Theory: An Introduction. **2010**, 3-31	65
970	Identification of marginal and joint CDFs using Bayesian method for RBDO. **2010**, 40, 35-51	61
969	Measures of non-exchangeability for bivariate random vectors. **2010**, 51, 687-699	29
968	Comparison of three semiparametric methods for estimating dependence parameters in copula models. **2010**, 47, 52-63	54
967	Meta-elliptical copulas for drought frequency analysis of periodic hydrologic data. **2010**, 24, 425-444	156
966	Uncertainty analysis in statistical modeling of extreme hydrological events. **2010**, 24, 567-578	42
965	Frequency analysis of droughts using the Plackett copula and parameter estimation by genetic algorithm. **2010**, 24, 783-805	118

964 Encounter probability analysis of typhoon and plum rain in the Taihu Lake Basin. **2010**, 53, 3331-3340 7

963 A copula-based joint deficit index for droughts. **2010**, 380, 121-134 392

962 A process-oriented and stochastic simulation model for asparagus spear growth and yield. **2010**, 32, 195-204 4

961 Copula-based uncertainty modelling: application to multisensor precipitation estimates. **2010**, 24, n/a-n/a 24

960 Modelling bivariate rainfall distribution and generating bivariate correlated rainfall data in neighbouring meteorological subdivisions using copula. **2010**, 24, 3558-3567 41

959 Some comments on goodness-of-fit tests for the parametric form of the copula based on . **2010**, 101, 749-763 13

958 Link between copula and tomography. **2010**, 31, 2258-2264 10

957 Statistical modeling of joint probability distribution using copula: Application to peak and permanent displacement seismic demands. **2010**, 32, 112-123 64

956 Multivariate skew-t approach to the design of accumulation risk scenarios for the flooding hazard. **2010**, 33, 1243-1255 25

955 Efficient estimation of a semiparametric dynamic copula model. **2010**, 54, 2609-2627 42

954 Assessment of seismic loss dependence using copula. **2010**, 30, 1076-91 24

953 A Copula-Based BRDF Model. **2010**, 29, 1795-1806 3

952 Multivariate Copulae. **2010**, 19-36 8

951 Modeling Dependence and Assessing the Effect of Uncertainty in Dependence in Probabilistic Analysis and Decision Under Uncertainty. **2010**,

950 Reliability-Based Design Optimization With Confidence Level for Non-Gaussian Distributions Using Bootstrap Method. **2010**,

949 A stochastic design rainfall generator based on copulas and mass curves. **2010**, 14, 2429-2442 45

948 Probability Analysis of Hydrological Loads for the Design of Flood Control Systems Using Copulas. *Journal of Hydrologic Engineering - ASCE*, **2010**, 15, 360-369 1.8 70

947 A new seasonal design flood method based on bivariate joint distribution of flood magnitude and date of occurrence. **2010**, 55, 1264-1280 55

946	Hydrological model for urban catchments analytical development using copulas and numerical solution. **2010**, 55, 1123-1136		12
945	D-vine EDA. **2010**,		10
944	Modeling of dependence in a peer-to-peer video application. **2010**,		2
943	Reliability Modeling for Symmetric Structure Systems Based on Copulas. **2010**, 118-120, 319-326		
942	Fitting bivariate copulas to the dependence structure between storm characteristics: A detailed analysis based on 105 year 10 min rainfall. **2010**, 46,		80
941	Reducing uncertainty in estimates of frequency distribution parameters using composite likelihood approach and copula-based bivariate distributions. **2010**, 46,		19
940	Multivariate multiparameter extreme value models and return periods: A copula approach. **2010**, 46,		173
939	Household Life Insurance Demand. **2010**, 14, 338-354		19
938	Simulation of Y-chromosomal haplotype data. **2010**, 224, 24-8		2
937	Weighted likelihood copula modeling of extreme rainfall events in Connecticut. **2010**, 390, 108-115		36
936	Statistical Modeling of the Monthly Palmer Drought Severity Index. *Journal of Hydrologic Engineering - ASCE*, **2010**, 15, 796-807	1.8	6
935	Drought Analysis Using Trivariate Copulas Conditional on Climatic States. *Journal of Hydrologic Engineering - ASCE*, **2010**, 15, 129-141	1.8	134
934	Pair-copula decomposition constructions for multivariate hydrological drought frequency analysis. **2011**,		4
933	A comparative copula-based bivariate frequency analysis of observed and simulated storm events: A case study on Bartlett-Lewis modeled rainfall. **2011**, 47,		86
932	El Nio Southern Oscillation influence on winter maximum daily precipitation in California in a spatial model. **2011**, 47,		36
931	Copula-based daily rainfall disaggregation model. **2011**, 47,		26
930	Statistical Hydrology. **2011**, 479-517		19
929	Checking for asymmetric default dependence in a credit card portfolio: A copula approach. **2011**, 18, 728-742		15

928	Invariant dependence structures and Archimedean copulas. **2011**, 81, 1995-2003	18
927	Copula-based downscaling of spatial rainfall: a proof of concept. **2011**, 15, 1445-1457	56
926	On the return period and design in a multivariate framework. **2011**, 15, 3293-3305	207
925	Copula-based statistical refinement of precipitation in RCM simulations over complex terrain. **2011**, 15, 2401-2419	88
924	A Comparative Analysis of Correlation Approaches in Finance. **2011**,	
923	Drought modeling A review. **2011**, 403, 157-175	526
922	A broader look at bivariate distributions applicable in hydrology. **2011**, 405, 451-461	11
921	Efficient texture image retrieval using copulas in a Bayesian framework. **2011**, 20, 2063-77	53
920	A goodness-of-fit test for multivariate multiparameter copulas based on multiplier central limit theorems. **2011**, 21, 17-30	75
919	Reliability-based design optimization with confidence level under input model uncertainty due to limited test data. **2011**, 43, 443-458	31
918	Inference in multivariate Archimedean copula models. **2011**, 20, 223-256	39
917	Bayesian model selection for D-vine pair-copula constructions. **2011**, 39, 239-258	36
916	Probabilistic rainfall thresholds for flood forecasting: evaluating different methodologies for modelling rainfall spatial correlation (or dependence). **2011**, 25, 2046-2055	29
915	Computational uncertainty analysis in multiresolution materials via stochastic constitutive theory. **2011**, 200, 309-325	53
914	Characterizing impulsive wave-in-deck loads on coastal bridges by probabilistic models of impact maxima and rise times. **2011**, 58, 908-926	16
913	A Copula based observation network design approach. **2011**, 26, 1349-1357	17
912	Discussion: Statistical models and methods for dependence in insurance data. **2011**, 40, 141-148	16
911	Modelling the dependence of goals scored by opposing teams in international soccer matches. **2011**, 11, 219-236	23

910	Copula-Based Analysis of Hydrological Extremes and Implications of Hydrological Behaviors in the Pearl River Basin, China. *Journal of Hydrologic Engineering - ASCE*, **2011**, 16, 598-607	1.8	38
909	Non-stationary wave height climate modeling and simulation. **2011**, 116,		27
908	Reliability-Based Design Optimization With Confidence Level for Non-Gaussian Distributions Using Bootstrap Method. **2011**, 133,		19
907	Soft Computing for Intelligent Control and Mobile Robotics. **2011**,		3
906	The distribution of Kendall's tau for testing the significance of cross-correlation in persistent data. **2011**, 56, 841-853		22
905	Assessing the Interactions between Chlorophyll a and Environmental Variables Using Copula Method. *Journal of Hydrologic Engineering - ASCE*, **2012**, 17, 495-506	1.8	11
904	Tail Dependence for Regularly Varying Time Series. **2012**, 2012, 1-14		
903	Maximum likelihood estimation of mixed C-vines with application to exchange rates. **2012**, 12, 229-255		131
902	Bivariate Rainfall and Runoff Analysis Using Entropy and Copula Theories. **2012**, 14, 1784-1812		48
901	Testing copula regression against benchmark models for point and interval estimation of tree wood volume in beech stands. **2012**, 131, 1313-1326		12
900	Risk Assessment of Droughts in Gujarat Using Bivariate Copulas. **2012**, 26, 3301-3327		73
899	Bivariate Flood Frequency Analysis of Upper Godavari River Flows Using Archimedean Copulas. **2012**, 26, 3995-4018		83
898	Estimation and goodness-of-fit procedures for Farlie□Gumbel□Morgenstern bivariate copula of order statistics. **2012**, 82, 137-147		
897	Estimation of flood inundation probabilities using global hazard indexes based on hydrodynamic variables. **2012**, 42-44, 119-129		34
896	Comparison of the interannual variability of spring heavy floods characteristics of tributaries of the St. Lawrence River in Quebec (Canada). **2012**, 35, 110-120		28
895	Use of observed scaled daily storm profiles in a copula based rainfall disaggregation model. **2012**, 45, 26-36		11
894	Copula-based modeling of stochastic wind power in Europe and implications for the Swiss power grid. **2012**, 96, 33-44		83
893	Using Predictive Risk for Process Control. **2012**, 54, 485-504		1

892	Copula-based interpretation of continuous rainfall-runoff simulations of a watershed in northern Iran. **2012**, 49, 681-691		12
891	Entropy-copula method for single-site monthly streamflow simulation. **2012**, 48,		39
890	Characterizing the uncertainty in river stage forecasts conditional on point forecast values. **2012**, 48,		8
889	Modelling the dependence and internal structure of storm events for continuous rainfall simulation. **2012**, 464-465, 249-261		31
888	Modelling Dependence. **2012**, 127-152		
887	Risk Assessment of Hydroclimatic Variability on Groundwater Levels in the Manjara Basin Aquifer in India Using Archimedean Copulas. *Journal of Hydrologic Engineering - ASCE*, **2012**, 17, 1345-1357	1.8	21
886	A probabilistic model for cell population phenotyping using HCS data. **2012**, 7, e42715		3
885	Assessing the hydrodynamic boundary conditions for risk analyses in coastal areas: a multivariate statistical approach based on Copula functions. **2012**, 12, 495-510		58
884	A Method for Ranking Non-Linear Qualitative Decision Preferences using Copulas. **2012**, 4, 42-58		7
883	Copula-based assimilation of radar and gauge information to derive bias-corrected precipitation fields. **2012**, 16, 2311-2328		42
882	Runoff Estimation for an Ungauged Catchment Using Geomorphological Instantaneous Unit Hydrograph (GIUH) and Copulas. **2012**, 26, 1615-1638		11
881	Bivariate drought frequency analysis using the copula method. **2012**, 108, 191-206		132
880	On multiple classes of gamma-ray bursts, as deduced from autocorrelation functions or bivariate duration/hardness ratio distributions. **2012**, 420, 405-415		22
879	Extreme values of coastal wave overtopping accounting for climate change and sea level rise. **2012**, 65, 27-37		67
878	Estimating discrete Markov models from various incomplete data schemes. **2012**, 56, 2609-2625		12
877	Detecting dependencies between spike trains of pairs of neurons through copulas. **2012**, 1434, 243-56		14
876	Time-dependent copulas. **2012**, 110, 19-29		41
875	A review of copula models for economic time series. **2012**, 110, 4-18		276

874	Multisite flooding hazard assessment in the Upper Mississippi River. **2012**, 412-413, 101-113		30
873	Spatio-temporal variations of precipitation extremes in Xinjiang, China. **2012**, 434-435, 7-18		105
872	Truncated regular vines in high dimensions with application to financial data. **2012**, 40, 68-85		155
871	Application of copulas for derivation of drought severity–duration–frequency curves. **2012**, 26, 1672-1685		96
870	Application of copula modelling to the performance assessment of reconstructed watersheds. **2012**, 26, 189-205		37
869	Multivariate drought characteristics using trivariate Gaussian and Student t copulas. **2013**, 27, 1175-1190		87
868	Bivariate simulation using copula and its application to probabilistic pile settlement analysis. **2013**, 37, 597-617		89
867	The return period analysis of natural disasters with statistical modeling of bivariate joint probability distribution. **2013**, 33, 134-45		35
866	Regional Air Quality Conformity in Transportation Networks with Stochastic Dependencies: A Theoretical Copula-Based Model. **2013**, 13, 373-397		15
865	Empirical copulas for consecutive survival data. **2013**, 22, 688-714		7
864	Joint distribution of multiplicative errors in radar and satellite QPEs and its use in estimating the conditional exceedance probability. **2013**, 59, 133-145		2
863	Analysis of ENSO-based climate variability in modulating drought risks over western Rajasthan in India. **2013**, 122, 253-269		15
862	Spatio-temporal analysis and derivation of copula-based intensity–area–frequency curves for droughts in western Rajasthan (India). **2013**, 27, 1975-1989		32
861	Water Deficit Duration and Severity Analysis Based on Runoff Derived from Noah Land Surface Model. *Journal of Hydrologic Engineering - ASCE*, **2013**, 18, 817-833	1.8	15
860	Probabilistic assessment of flood risks using trivariate copulas. **2013**, 111, 341-360		68
859	Calculating Bivariate Orthonormal Polynomials By Recurrence. **2013**, 55, 15-24		3
858	Multivariate assessment of droughts: Frequency analysis and dynamic return period. **2013**, 49, 6985-6994		98
857	A stochastic reconstruction framework for analysis of water resource system vulnerability to climate-induced changes in river flow regime. **2013**, 49, 291-305		63

856	Copulas and Copula Models. **2013**,	2
855	Pair-copulas in infrastructure multivariate dependence modeling. **2013**, 49, 903-911	9
854	Trivariate analysis of soil ranking-correlated characteristics and its application to probabilistic stability assessments in geotechnical engineering problems. **2013**, 53, 540-556	64
853	Probabilistic slope stability analysis by a copula-based sampling method. **2013**, 17, 739-755	38
852	Dependence structure analysis of the inverter operational data by means of copula theory. **2013**, 40, 439-451	2
851	Copula Methods for Forecasting Multivariate Time Series. **2013**, 899-960	96
850	Simulated Method of Moments Estimation for Copula-Based Multivariate Models. **2013**, 108, 689-700	42
849	Nonparametric Identification of Copula Structures. **2013**, 108, 666-675	14
848	Multivariate Standardized Drought Index: A parametric multi-index model. **2013**, 57, 12-18	419
847	Combining Time Series Forecasting Models via Gumbel-Hougaard Copulas. **2013**,	1
846	Comparison study between probabilistic and possibilistic methods for problems under a lack of correlated input statistical information. **2013**, 47, 175-189	11
845	Multivariate Extreme Value Methods. **2013**, 115-162	10
844	Bivariate drought frequency curves and confidence intervals: a case study using monthly rainfall generation. **2013**, 27, 285-295	16
843	Moment-independent regional sensitivity analysis: Application to an environmental model. **2013**, 47, 55-63	20
842	On the market risk of securitized timberlands. **2013**, 19, 110-127	10
841	A moment-based test for extreme-value dependence. **2013**, 76, 673-695	1
840	Impact of copula selection on geotechnical reliability under incomplete probability information. **2013**, 49, 264-278	131
839	Multivariate return period calculation via survival functions. **2013**, 49, 2308-2311	81

838	Identification of hydrologic drought triggers from hydroclimatic predictor variables. **2013**, 49, 4476-4492		41
837	Selecting and estimating regular vine copulae and application to financial returns. **2013**, 59, 52-69		315
836	Multivariate probabilistic forecasting using ensemble Bayesian model averaging and copulas. **2013**, 139, 982-991		71
835	The use of copulas in explaining crop yield dependence structures for use in geographic diversification. **2013**, 73, 469-492		8
834	Bivariate distribution models using copulas for reliability analysis. **2013**, 227, 499-512		22
833	Bivariate Flood Frequency Analysis with Historical Information Based on Copula. *Journal of Hydrologic Engineering - ASCE*, **2013**, 18, 1018-1030	1.8	43
